

"My six-year-old daughter, Bella, was afflicted with eczema for 24 months, the principal seat of eruption being behind her ears. I tried almost every remedy I saw advertised, bought innumerable medicines and ointments, and took the child to medical specialists in skin diseases, but without result. Finally, a week ago, I purchased a box of Dr. Chase's Ointment, and the first application showed the curative effect of the remedy. We have used only one-fifth of the box, but the change is very marked; the eruption has all disappeared, and I can confidently say my child is cured."
