FREDERICTON.

[Progress is for sale in Fredericton by W. T. H. Fenety and J. H. Hawthorne.]

JAN. 22.—Society has been having quite a gay and busy time of it, the past week, with first a dinner at "Farraline place," then an afternoon tea at "Boothreaux house," and finishing the week with a ball at "Elmshade."

The dinner given by the Governor and Mrs. Fraser on Thursday last, was in honor of Mrs. Morris Hazen and Miss Hazen of St. John, who are visiting here, and was, as all such functions of Government House are, most thoroughly enjoyable.

The invited guests were: Mr. and Mrs. Hazen, Rev. Mr. and Mrs. Montgomery, Mr. and Mrs. Delancy Robinson, Mr. and Mrs. A. J. Gregory, Mr. W. F. Mitchell, Miss Jarvis, Mr. Macdonnell, and Lieut. Colonel Gordon, A. D. C.

The ball at "Elmshade" on Friday night was the social event of the week, when Mr. and Mrs. Geo. F. Gregory entertained upwards of one hundred guests; the house being so admirably adapted for entertaining that at no time during the evening did there appear to be any crush. A very complete programme of sixteen dances, with three supper extras, was enjoyed to the music of Perkins' orchestra; and during the evening were served between the dancing. The house was delightfully decorated with flowers, and so many sitting out places, made it very cosy for those who love to have a quiet chat.

The supper room was opened at twelve o'clock when a most sumptuous repast with everything to suit the most epicurean taste was enjoyed. Mr. and Mrs. Gregory received their friends in the drawing room, while Mr. J. Fraser Gregory stood with his sisters in the archway of the large double parlors, which were reserved for dancing, and received the guests as they passed from the drawing-room into the parlors.

Piano Lumber.

Like a precious stone is valuable in proportion as it is flawless. A perfect piano must have perfect wood, Mr. L. E. N. Pratte, manager for this company spent some time making a personal selection of timber as it stood in the forest. No other piano manufacturers have taken such trouble but the Pratte Piano Company spare no effort to have every detail perfect. Not only was the wood selected personally by the Pratte Piano Company's manager, but through all the various processes of transformation in addition to the attention of skilled mechanics it has the personal supervision of Mr. Pratte. This insures unequalled results. You are invited to our warehouses to see our new instruments. Beginning with this number there will be a series of interesting ads. on piano makes, all numbered for convenience.

Have You been disappointed In using FIBRE CHAMOIS? Always Cut Across the Goods For the Following Reasons: In a skirt for instance, the fine creases or wrinkles that run lengthwise of the goods should always run around, never up and down. They will thus act as so many little wires giving splendid support and stiffness. The drag and strain will also be across the grain which is much tougher that way. No. 10, the light used in this way will be found ample support for all skirts and sleeves and the weight will not be felt. A few inches of the No. 30 around the hem may be necessary in a street skirt. No. 20, the Medium, is best for giving body and warmth in coats, capes, etc. No. 30, the Heavy, should only be used either single or double, in collars, belts, lapels, etc. Used as above, satisfaction is positively certain. Redfern approves, so do Lillian Russell, Mrs. Jenness Miller, Mrs. Frank Leslie and thousands of others. Then you have not cut it Properly, : : Have used the wrong weight, or have been induced to try the "just as good" imitations.

\$25.00 FOR YOU. A Model Dairy Store. Eight years ago Mr. E. H. Turnbull began supplying cream from Jersey cows and eggs from Plymouth Rock hens to the public of St. John through one of the leading grocers. Soon the name of his farm, "Alderbrook" stamped on the egg boxes and identified with his cream earned a reputation in the market of the first order. However, from time to time there were complaints of the cream going sour and occasionally being off flavor. Mr. Turnbull then determined that he would open a store of his own that would be devoted specially to dairy products. Consequently last July Alderbrook Dairy store was opened at 91 Charlotte street with the underlying idea of purity of product, cleanliness of handling and a fair price for goods, quality considered. A commodious milk wagon was specially imported and the daily delivery of Jersey milk in glass bottles, with card board caps, that are only used once, was begun. This milk, delivered in the most perfect of modern methods at the regular market price of 6c per quart, has proved a great success. Butter from Alderbrook is cream and the best creameries and butter makers in the year round. Park products, hams, bacon etc. Mr. Turnbull has obtained many hints from the Delicatessen (delicate eating) stores of England, Europe and the United States, but he is anxious for local help on the important subject of how best to conduct a store of this kind. The conditions are, the essay shall be hints or essay on this subject he will give a prize of \$25.00 in gold. The conditions are, the essay shall be mailed or sent to Alderbrook Dairy 91 Charlotte St before March 1st, 1896. "The subject shall be: "How best to conduct a model dairy store in St. John, N.B." The judges shall be two leading editors of St. John, and Mr. Turnbull himself and they will judge by the following scale of points: (1) Equipment of store including class of employees.....20 (2) New classes of goods to have on sale and manner of handling them.....4 (3) Best methods of advertising.....4 (4) Best hints on what not to do.....10 (5) Style and finish of essay.....10 Mr. Turnbull reserves the right to publish any part or all of the essays but will not give writers' names or addresses if so requested.
