ACTORS AND ACTRESSES.

SOME WHO INTERES CNEW YORK AT THIS SEASON.

Facts About "the Notorious Mrs. Ebbsmith" Proved Popular-Marie Studholme and Julia Neilson as Beauties.

NEW YORK, Jan. 2.- The first week of the new year is regarded by actors as a sort of balt-way house in the dramatic season. Most of the novelties have been tried in New York and been acquitted or found wanting. Sarah Bernhardt is about the only novelty now dawning on the theatrical horizon, and, Great Scott ! imagine calling Sarah a novelty. And then, too, I was forgetting Duse. Unless the incomparable Italian falls ill again we shall have her at the Fifth Avenue before very long, and then, with Sarah a little farther up the street at Abbey's, there certainly ought to be some dramatic fun in store. It is a curious fact about these two great actresses that, although from time to time they have been thrown into close propinquity, they have never met. In Paris the other day Sırah explained, the situation by saying: "I should not really care to meet Mme. Duse; my Italian is so bad." She forgot, however, to say that Mme. Duse speaks excellent French. Duse, on the other hand, never mentions Bernhardt's name. The last time that she was here in America there were two young women who met her in a social way, and made it room. The grand opera is not, yet, howthe business of their life to ascertain ever, an assured success. Even on the whether she had ever seen Bernhardt act. At the end of a fortnight I met one of the girls on the street. "Well," I asked, years ago. The truth of the matter is, the "have you discovered anything ?" I believe yon call it a Yankee play; but it's really more than that. It's a bit of human nature. A young wowan walked into the office of a masseuse several months ago and said :

"I'm so downright ugly that I'm a dismal failure in society Do you think that you possibly can," with a distressed emphasis on the can, "do anything with me ?"

The operator, who was the first in America to treat the face with steam, looked at the girl critically, and replied, as she turned her toward the light to get a better

"Oh. yes; I can make a handsome woman of you. It will take time and patience however, for your face needs building up." "You talk about my countenance as if it were the side of a mud fence," responded the girl, with a bright smile. She was evi-

dently encouraged. "But what do you mean by building my face np?" she resumed, quite seriously.

"Well, just this," explained the expert. "The cheeks are the only part of the body containing fan muscles, and this trequently causes them to sag, just as yours are doing Your cheek bones are high, and when the flesh hangs from them, as yours does, you can't expect to look well. Then your complexion is very muddy, and something is wrong with your skin

"And my neck is so long and skinny that I have to wear collars up under my ears, interrupted the young woman.

"Yes," said the massevse, soothingly, "but all that can be changed. You mustn't expect me to do it in one operation, but it you'll consent to make a self-sacrifice, beginning of next season."

"How will you do it ?" she asked, incredulously.
