As it went on, however, Freyciat shook his head, shrugged his thulders and smiled and when it was finished, took

At the end Puck comes up through the trap to deliver the final speech. 'Up I came,' narrates Miss Terry, 'but not quite up. for the man closed the trap too quickly and caught my toe. I screamed. This was a pet cat, a great favorite with all of us. This same cat came very near getting me into serious trouble. On one occasion she took a week's leave of absence. We never ascertained where or how she spent the time, and no trace of her could be found. But 'the cat came back.'

There before me, by the light streaming through an open window, I could plainly see madame wrapt in slumber, unconscious of the proximity of a stray man, calmly, yet not quietly, snoczing away. Think but this and all is mended (I hope my poor toe will.)

That you have slumbered here. Woile this vision did appear (I can't I can't,) And this weak and idle theme No more yielding than a dream (oh, dear, oh, dear, and a sob.) Gentles do not reprehend.

If you pardon we will mend (oh, Mrs. Kean)

\$2,000,000 Destroyed

"We have done away with the twomillion-dol ar bundle of money that we used to allow the brides who visited the vaults to handle," said a Treasury guide, "and they do not seem to be pleased with it. Many is the bride to whom I have handed the bundle, marked 'two million dollars,' with the remark : 'Now you can say you had two million dollars in your hands.' It ticked them wonderfully, and they went away happy, but ignorant of what they handled. What was in the bundle ? I don't remember distinctly, but there was no money in it. The weight I know, was made up of two o'd census reports. It served them as well as real money."-Washington Star.

When a gown can be called a "poem," then we have obviously reached the perfection of grace and beau y. The modiste is much; the material is more. Priestley's black dress tabrics are noted for their easy fitting quality, for the refinement which gives them a peculiar distinction. Priestley's new creation, the "Eudora,' appears to be their best, it their tamous Henriettas can be beaten. In glow, in quality, in exquisite draping effects, the "Eudora" takes the palm. Its superior practical features are greater width, greater weight, and an absolute impereiousness to dust. Wrapped on ' The Varnished Board" and the name, Priestley, stamped on every five yards.
