Mr. Mitchell, the premier and attorney general, has in his catinet almost an equal number of liberals and conservatives. It would be impossible to say that a government wholly partisan would govern it any better. The present arrangement seems better calculat. ed to bring torward the best men in the province than the partisan plan. Membership in the order carries with it an insurance policy of \$2000 which is payable at death. Any person in good health and under 4 years of age can join the order at a cost of about nine dollars which includes medical examination. The cost of insurance is very reasonable not being more than \$8 or \$9 per year for \$1000 and the traternal and social features of the order are worth all of that. Whatever is the reason, any show verging on 'the ragged edge' of decency is sure to draw a crowd in St. John. Claire. Clear and beautiful as sweet. The dew falls round the rills; And gliding slowly rast my feet, The brook flows from the hills. Clear is thy name, and fair art thou, Whose face before me beams; The light of grace is on thy brow, Glad as the brook's bright gleams.

When star light mirror's in the lake, And free its depths with light; I only see for true love's sake, Thy beauty in the sight. I give to thee love's starry crown, Faith's beautiful true eyes; For thee my spirit would lay down Its birth right to the skies.

A GOOD PLACE FOR BOYS. Satisfactory Results of the Rothrsay College and University Examinations.

The matriculation examination for the universities of New Brunswick and Dalhousie have recently been completed. The results give a most creditable standing to the Rothesay Collegiate school of New Brunswick. This school sent up six boys to the University of New Brunswick for By the way, when once Mr. Taylor starts matriculation in arts and one for matriculation in engineering; of these all were successful. The following are the names of the successful students with the precentage that each one obtained.

W. H. Harrison, 78.8; Louis Barker, 71.5 O. R. Peters, 61 5; A. Covert, 54 5: S. Emerson, 51: F. Bayfield, 45.9. W. Breckner passed in engineering - per centage not made known. An interesting feature in connection with these results is the fact that the marks made by W. H. Harrison are the highest in the province. In addition to taking this high stand Mr. Harison made the further distinction of taking first class bonors in Classics and of winning the Kirgs county scholarship. Louis Barker gained the distinction of standing first in the province in mathematics. He made the high mark of 98.3 per cent. At Dalhousie the Rothesay pupils were even more successful than in N. B. Only three boys from this school presented themselves for Matriculation at Dalhousie. Not only were they all successful in passing but each won a Scholarship. J. Ritchie won the Mackenzie scholarship. N. Ritchie won a Sir. Wm. Young scholarship. G. Henderson won a Sir. Wm. Young scholarship. In addition to winning these scholarships, these boys have each distinguished themselves in one department. J. Ritchie stood first in classics in Nova Scotia. N. Ritchie first in mathematics and G. Henderson first in English. The above results make the standing of | But there are ladies' tailors as well as men's its pupils successful in one province only, this would show thorough efficiency but when it is known that almost double work

HALIFAX, Oct. 15 .- General Montgomerv-Moore, through Colonel North, has addressed a letter of thanks to Mayor Black, as representing the milited forces. The general compliments the Halifax garrison artillery and 63rd rifles, on their admirable appearance and excellent work on the occasion of the mobilization of the troops. There is much comment on the fact that the general is silent as to the 66 h. P. L. F. They are not mentioned in the let'er. This is not likely accountable for by the omission of the sulute to the general when the troops left the common. Whatever the reason is the battalion are not mentioned.
