Thursday of last week was an ideal day for football. No snow and no wind, either being troub'esome at times. A little cold for spectators, but enthusi i m kept them warm, the Wanderers with joy, the Navy and their frien's with chagrin. The Wanderers deserve their victory. The defeat of the collegiars, decisive as it was, was doubly reprated on Thursday, and the red and blacks come out champions, with the best team for many a year. A team good in material but better in temper; the most gentle. manly team the Wanderers have ever put in the field. The quarrels have been between spectators and not players. On Thursday a large number of people turned up to see the game and to go to Mrs W. A. Henry's tea to follow It was fitting that the wife of the man to whom the Wanderers owe much of their success as an atheletic club should entertain in the day of triumph and victory. There was an air of conquer not to be mistakencoming from football. Mrs. Henry was assisted by Miss Mary Troop and Miss Taylor Wood.

His many friends were very glad to welcome Capt. Edward Duflus, R. A, back once more to his home. He will only stay a few short weeks, having to join his battery at Alex andria.

H. M. S. Cordelia left on Thursday for Bermuda. The last of the ships will soon be going, and then Halifax will sink into winter slumbers.

Mrs. Erskine has quite recovered from her recent painful accident and expects to be a-biking in a few

The exhibition of fancy work at the commissioner's house last we k was a grand success Mrs. Erskine d serves a great deal of credit for organizing such an exhibit. It is to be 'hoped that it will be an annual aff sir. If held in the summer, when the town is fu'l of Americans, it might be extremely profitable, for the work done by the sailors would prove a great attraction.

A sailor can do almost anything, evidently, from making bread to embroidering slippers. There seems to be no end to his varsatility. It was difficult to see all the faucy work owing to the crowd and the way in which the tables were placed. Therefore it was a pity that the exhibition had not been for more than a day. The prizes were very beautiful and worthy of competition, and the diffi :ult task of awarding them was very satisfactorily performed. The lieut-governor's motto for the Crescent deserved the prize. The fancy work was very beautiful, the fan worked and painted by Mrs. LeNoir was a gen of embroidery, as also was the same lady's tilet cover. Miss Stubbings' cushion was certainly very artistic, as was that of Miss Ethel Stairs, which took second prize. It would be im possible to mention all the pretty things, fairly mik" ing one's mouth water with the thought of buying I hear that in the sale of fancy work in aid of St. Stephen's most of these articles will be again offered for sale. An exhibition of this kind, on a larger scale, would be an attraction for the winter months-requiring, though, energy like Mrs. For every lady, in having a coat or

Erskine's to get it up.

As usual with the month of November, all kinds of rumors as to the rick are in the air. Some say there will be no private afternoons, but the cheerafternoons, but evenings as well. So therefore let cold wintry air. all be cheerful. It is also the intention to form a ladies' hockey club after the manner of that of St. John. An inter city mutch will be one of the attractions of the winter. Hockey is a game very suitable to ladies who are good sk sters, and sure'y no town in Canada has so miny excellent skaters as Halifax Mrs. Townsheni gave a very pleasant suchre party on Friday evening.

There are three large euchre parties for next week. Euchre seems still to hold its place. But there are such thing; as progressive poker parties

Nov. 11 -There is little talked about in society

circles but the approaching visit of Madame Alb ni which it is needless to say is being looked forward to very eagerly, not only by music lovers, but also by those whose chief interest in the great event is confined to a curiosity to see the great Canadian queen of song. I am glad to say that the venture of bringing her here, is likely to be most successful as I believe every seat in the lower part of the opera house has already seen sold. Professor J.
