Agitation in the world of homæpathic medicine is the very oul of progress, as in politics and relig-ion—the difference of opinion and the individuality of men have been parents of the disagreemens; by which the standard of these bodies has been elevated. So with most of our famous preparationsforemost in illustration of which truth stands the world-famous remedy for general debility and languor, "Quinive Wine"—and which, when obtain able in its genuine strength, is a miraculous creator of appetite, vitality and stimulant, to the general fertility of the system. Quin ne Wine and its improvements has, from the first discovery of the general virtues of Quinine as a medical agent, been one of the most thoroughly disscussed remedies ever offered to the public. It is one of the great tonics and life-giving stimulants which the medical profession have been compelled to recognize and pre-scribe. Messrs. Northrop & Lyman, of Toronto, have given to the preparation of their pure Quinine Wine the great care due to its importance, and the standard excellence of the article which they offer to the public comes into the market purged of all the defects which skilful observation and scientific opinion has pointed out in the less perfect prepara-tions of the past. All druggists sell it.
