Agitation in the world of hom copathic medicine is the very soul of progress, as in politics and religion—the difference of opinion and the individ uality of men have been parents of the disagreeents by which the standard of these bodies has been elevated. So with most of our famous preparations-foremost in illustration of which truth stands the world-famous remedy for general debility and langour, "Quinine Wine"—and which, when obtainable in its genuine strength, is a miraculous creator of appetite, vitality and stimulant to the general fertility of the system. Quinine Wine and its improvement has, from the first discovery of the general virtues of Quinine as a medical agent, been one of the most thoroughly discussed remedies ever offered to the public. It is one of the great tonics and life-giving stimulants which the medical profession have been compelled to recognize and prescribe. Messrs. Northrop & Lyman, of Toronto, have given to the preparation of their pure Quinine Wine the great care due to its importance, and the standard excellence of the article which they offer to the public comes into the market purged of all the detects which skilful observation and scientific inion has pointed out in the less perfect prepara-

tions of the past. All druggists sell it. The first English laws against counterfeiting were issued in 1108 by Henry I.

The United States mint was established in 1792 and at once began operations. It was only 40 years ago that the ports of Japan were forcibly opened to foreign commerce. It was only 28 years ago that the first labor-saving machine was set up within the limits of that Empire. Now the exports and imports exceed \$115,000,000. It is a curious fact that 10,273,401 fans, 2,348,810 umbrellas. 134, 296 screens, 455,659 paper lanterns and 13,843,022 gross of matches were ship-
