May 26.—Mrs. A. E. Neill gave a very pleasant card party at her home on Wednesday evening. The party was given for the pleasure of her friend and guest Mrs. Herbert Bernard of Portland, Maine. It is rumored that General B. B. Murray of Pembroke, Maine, may be the United States Consul at Halifax, under the administration of President McKinley.

Mrs. John Hodgins of Ottawa contemplates spending part of the summer in Calais, much to the delight of her numerous friends on both sides the St. Croix, among whom she is a favorite.

The Queen's Birthday passed off very pleasantly although there was nothing very extraordinary going on in town. A large number of excursionists came from St. John and vicinity on the Shore Line Railway. In the afternoon the Y. M. C. A. gave a programme of sports and races at the St. Croix Driving Park. The town was very gay with flags and bunting; never has so much color been thrown to the breeze as on Monday. A Royal salute was fired at twelve o'clock, and with the band and several street organs there was music galore.

The evening, a supper was given in the Methodist church, by the ladies of the Methodist church and the Y. M. C. A. gave an entertainment in the curling rink called "A Hayseed Carnival" which was most amusing, and was largely attended. The town was full of people all day. A moving crowd who seem to be enjoying themselves, and the day passed off without accident and most successfully.

The American house on Friday evening last was abuzz with light and gay with festivity, it being the occasion of a grand banquet given by the members of the Kit Kat club, which is the most popular of the many literary clubs, and made up of the elites of Calais. The club chose its name from the original Kit Kat club, which held its first meeting in a tavern in London, kept by a man named Christopher Kat consequently the quaint name of Kit Kat. The guests met in the parlors of the hotel. Every one was in full dress and the toilettes of the ladies were remarkable for their beauty and style, nearly all being worn for the first time. The dining room was open at nine o'clock. The guests were seated according to a plan left in the gentlemen's dressing room, the arrangements being made to avoid mistakes and confusion. The tables were decorated with violets, day break pinks and sallow, and Dresden figures, in quaint designs. The menu cards were hand painted, and were decorated with kittens in various positions, and were tied with tiny bouquets of pussy willows, and pink ribbon. The menu, consisted of nine courses, and the banquet, and toasts occupied four hours. Rev. C. G. McCully a most valued member of the club, was chosen toast master, and was in his happiest, and most witty mood. The first toast was the President of the United States, which was responded to by the whole company rising and singing "America," Her Most Gracious Majesty Queen Victoria, was the next toast, which was responded to by Mr. George H. Eaton, and the company rose and sang "God Save the Queen." "The Club," was responded to by Mrs. W. A. Murchie, in a most brilliant and able manner, "Items of the Club," brought Mr. Edward Moore to his feet with a short but happy speech. "The Bar," was responded to by General B. B. Murray of Pembroke, who with Mrs. Murray were honored guests of the club. "The Press as a social Organ," was responded to by Miss Elizabeth Jackson, in a bright and witty speech which won for her great applause and many pleasant comments. A tenor solo by Mr. Henry B. Eaton, was rendered in a very pleasing way. "The State of Maine" brought Mr. Charles Boardman to his feet with a most enthusiastic and witty speech which was greatly appreciated. "The Medical Fraternity," was responded to by Dr. Stephen Webber. Miss Josephine Moore in her usual charming way gave a most pleasing recitation, and Mr. Verne Whitman sang a song. A toast was then proposed and drank in honor of Mrs. A. E. Neill, a most prominent member of the club who originated the idea of the banquet and did much to make it the great success and pleasure it was to all the members of the club. The banquet came to a close at an early hour in the morning. "Auld Lang Syne" was sung most heartily before the company departed to their homes.

May 26.—The holiday passed off after the manner of holidays, like a very quiet Sunday bereft even the chastened excitement of getting ready for church. It was, however, marked by an excellent game of amateur baseball on the athletic grounds in the afternoon; and a prominent concert given by the Citizens Band in Victoria rink closed the day very pleasantly. For once the band had a really creditable audience, there being over a thousand people in the rink, but whether the two good watches which were drawn for during the evening had anything to do with the unusually large audience I cannot say. Whatever the attraction may have been, the programme was sufficiently good to have drawn even a larger audience by its merits.

A march composed by Mr. D. Stewart leader of the band was especially admired, while the cornet solo by Mr. Fred Grandall, and the euphonium solo by Mr. Bonness called forth warm applause. The watches were drawn by Miss Minnie Hunter and Mr. Jack Rippey. The Citizens band is an organization that many larger cities might well be proud of, and it is deserving of much better support than it has ever obtained.

THINGS OF VALUE.

The new French bank notes are in three colors—brown, red and blue—to prevent counterfeiting by way of photography.

"Lending umbrellas" are a new variety which ought to have a large sale, since they are of so little value that whether they are ever returned or not, is a matter of little importance.

A DINNER BILL.—Many persons suffer excruciating agony after partaking of a heavy dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment it becomes a poison to the system. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open secretions and convert the food partaken of into healthy nutriment. They are just the medicine to take if troubled with indigestion or Dyspepsia.

When you say "No" to a woman, you must follow it with an explanation.

Mrs. Celeste Coon, Syracuse, N. Y., writes: "For years I could not eat many kinds of food without producing a burning, excruciating pain in my stomach. I took Parmelee's Pills according to directions and the head of Dyspepsia or Indigestion. One box entirely cured me. I can now eat anything I choose, without distressing me in the least." These Pills do not cause pain or griping, and should be used when a cathartic is required.

After a man has learned to dislike a woman she can no longer punish him.

SLEEPLESSNESS is due to nervous excitement. The delicately constituted, the financier, the business man, and those whose occupation necessitates great mental strain or worry, all suffer less or more from it. Sleep is the great restorer of a worried brain, and to get sleep cleanse the stomach from all impurities with a few doses of Parmelee's Vegetable Pills, gelatine coated, containing no mercury, and are guaranteed to give satisfaction or the money will be refunded.

When a man is good to his wife, her mother is usually the last person to find it out.

Free and easy expectoration immediately relieves and frees the throat and lungs from viscid phlegm, and a medicine that promotes this is the best medicine to use for coughs, colds, inflammation of the lungs and all affections of the throat and chest. This is precisely what Bickie's Anti-Consumptive Syrup is a specific for, and wherever used it has given unbounded satisfaction. Children like it because it is pleasant, adults like it because it relieves and cures the disease.

PAPER MONEY.

The Kinds of Currency That Are Used by Foreign Countries.

The Bank of England note is 5 inches by 8 in dimensions and is printed in black ink on Irish linen water lined paper, plain white, with ragged edges. The notes of the Banque de France are made of white water lined paper, printed in blue and black, with numerous mythological and allegorical pictures, and running in denomination from the 25 franc note to the 1,000 franc. South American currency, in most

countries, is about the size and appearance of American bills, except that cinnamon brown and slate blue are the prevailing colors and Spanish and Portuguese are the prevailing languages engraved on the face.

The German currency is rather artistic. The bills are printed in green and black. They run in denominations from 5 to 1000 marks. These latter bills are printed on silk fiber paper.

The Chinese paper currency is in red, white and yellow, with gilt lettering and gorgeous little hand drawn devices. The bills, to the ordinary financier, might pass for washing bills, but they are worth good money in the Flowery Kingdom. Italian notes are of all sizes, shapes and colors.

The smaller bills, 5 and 10 lire notes, are printed on white paper in pink, blue and carmine inks and ornamented with a finely engraved vignette of King Humbert.

The 100 ruble note of Russia is barred from top to bottom with all the colors of the rainbow, blended as when shown through a prism. In the center, in bold relief, stands a large, finely executed vignette of the Empress Catherine I. This is in black. The other engraving is not at all intricate or elaborate, but is well done in dark and light brown and black inks.

The Australian bill is printed on light colored thick paper which shows none of the silk fiber marks on geometric lines used in American currency as a protection against counterfeiting.—Golden Days.
