SEPT. 29 -The chief entertainment of the past week has been the visit of Lord and Lady Aberdeen who honored our city on Monday by remaining with us the entifre day laying the corner stone of the new school building over which there has been so much dispute taking in the bicycles races on ! the Athelic grounds under their distinguished patronage, and finally holding a reception in the evening at the Victoria Rink and giving the citizens an opportunity of shaking hands with representatives of our own beloved Queen. The reception which was quite informal was very largely attended and a number were presented to Their Excellencies Naturally, it was a very busy week for the good citizens of the railway town, as the proper recep tion of such distinguished visitors required time and thought, and there has been very little going on in the social world.

The young married couple who are crown-

ed with good health are really a king and queen. They are possessed of an armor that enables them to withstand all the hardships and misfortunes of life. Accidents aside, they will live long, happy lives of mutual helpfulness, and they will be blessed with amfable, healthy children. They will sit together in the twilight of old age and look back without regret over a mutually happy, helpful, useful, successful companionship. There are thousands of young couples every day who start wedded life with but one drawback,—one or the other, or both, suffer from ill-health. There can be no true

wedded happiness that is overshadowed by the black cloud of physical suffering. The man who contemplates matrimony, and realizes that through overwork or worry or neglect, he is suffering from ill-health, should take the proper steps to remedy it before he assumes the responsibilities of a husband.
