MAR 9.—Farewell seems to be the order of the day, and if these rather melancholy festivities continue we shall soon lose all our young men since each supper signalizes the departure of one of them for far away shores.

The first of the series took place on Wednesday evening last at Hotel Americain, and was given in honor of Mr. W. A. Chapman, youngest son of Mr. R. A. Chipman, Inspector of Fisheries, who left on Thursday for British Columbia. The supper was a very sumptuous affair almost deserving the title of banquet, all the luxuries of the season being served in excellent style. Mr. F. J. Sweeney presided, with the guest of the evening at his right, and after the most substantial portion of the entertainment had been disposed of, toasts were the order of the evening, and after the expression of many good wishes for the departing voyager and vocal and instrumental music from Messrs. Peters, Le Blanc, Croke, Barker and Bezzanson, the company sang Aud Lang Syne, and God Save the Queen, and the evening was brought to a close. It is understood that Mr. Chapman's ultimate destination is the Yukon, though he will probably remain on the Pacific coast for the summer; his many friends join in wishing him all success in his new home.

On Tuesday evening the dining room of Hotel Brunswick, and Connors restaurant were each the scene of a festive gathering the former being given to Mr. L. B. Read accountant of the Merchants' Bank of Halifax, by about fifty of his friends, on the occasion of his transfer from the Moncton branch of the bank to the St. John's New Brunswick agency. The supper was elegantly served and thoroughly enjoyed by the guests. Mr. E. C. Cole

If we move our legs proportionately as fast as an ant, it is calculated we could travel nearly eight hundred miles an hour.

There never was and never will be, a universal panacea, in one remedy, for all ills which the flesh is heir to—the very nature of many curatives being such that were the germs of other and indefinitely seated diseases rooted in the system of the patient what would relieve one ill, in turn, would aggravate the other. We have, however, in Quinine Wine, when obtainable in a sound undiluted state, a remedy for many and grievous ills. By its gradual and judicious use, the frail system is led into convalescence and strength, the ailments which Quinine excites on Nature's own restoratives. It relieves the drooping spirits of those who have a chronic state of morbid despondency and lack of interest in life is a disease, and, by tranquilizing the nerves, dispels to sound and refreshing sleep—imparts vigor to the action of the blood, which being stimulated, courses through the veins, strengthening the healthy normal functions of the system, thereby making it a necessary result, strengthening the frame, and giving life to the digestive organs, which naturally demand increased substance—results, improved appetite, Northrop & Lyman, of Toronto, have given to the public their superior Quinine Wine at the usual rate, and, gauged by the opinion of scientists, this wine approaches nearest perfection of any in the market. There is danger in neglecting a cold. Many who have died of consumption died of their troubles from exposure followed by a cold which settled on their lungs, and in a short time they were beyond the skill of the best physician. Had they used Bickie's Anti-Consumptive Syrup before it was too late, their lives would not have been spared. This medicine has no equal for curing coughs, colds and all affections of the throat and lungs.
