## ST. JOHN, N. B., SATURDAY, JUNE 18. 1898.

## NOW, IS THIS ALL TRUE?

#### SOME THINGS SAID ABOUT A MAR-RIAGE EVENT.

Incidents That Were not a Part of the Ceremony But Furnished Food for Talk and Thought-Invitations are as Thick as Bees in Bright, Sanshiny Jane.

"What's this, Sarah, what's this ?" was RESS once heard of a bride-and she is still in that class, who carried her ideas of the startled exclamation of a gentleman high in official as well as social rank, to his wife a "fit out" to such a ridiculous extent that as he sat at the breakfast table a few mornings ago and read a polite invitation, couched painted sheets ! It would not be right to in the usual terms, to a marriage to take vouch for the truth of the story but it place in this city.

Now an invitation of any kind was not apt to upset the usual gravity of the gentleman in question; in tact he would rather be delighted to assist in any little festivity that became such a pleasant ceremony as a marriage or a wedding but this particular request for the pleasure of his and his wife's company he looked upon with some sus picion.

Cause why <sup>p</sup> He didn't know the people. Still, though there may a social observance which endeavors to prevent such little errors as a man inviting a stranger to one's house to see his daughter married there is an element of good will, and sociability and hospitality about such a cordial request that is very enticing. True, there are some sordid and narrow spirits in the world who always look upon an invitation to a marriage with suspicion. The first thing such a man, for example, would think about would be, do they want my company or a present, but fortunately these people are few. On the other hand when two or three hundred people, apart from

HOW THEY ARRANGE THE MATTER

IN BOSTON.

#### A Short Talk With a Boston Cyclist and Some Suggestions From Good Roads Members-The Difficulty of Administering a Fund-Carriages Should Pay a Tax.

There is a good deal of agreement with PROGRESS' suggestion that the cyclists should advocate a road fund to be administered by representatives from their own organization, the good roads association and the city council for the improvement of such roads as they wish the money expended on. A Boston wheelman talking to PROGRESS a few days ago asked if the cyclist had any protection from the city and what the bye-laws were. When assured as to these facts he asked what the license fee was. "Nothing" was the reply. He was surprised at this statement and said that every wheel paid two dollars in Boston. "Of course" we have, as a result of that, beautiful roads and cycle paths and so would the wheelman here in a short time if they paid the tax."

When a prominent member of the Good Roads association, and he is a cyclist too, was spoken to on the subject he agreed that the tax would not be a heavy one on the cyclist and if the money could be expended in the way PROGRESS suggested it would result in great improvement to the roads, but he saw difficulties in the expending of such a fund. If done by a representative commission, legislation would be necessary in the first place. Then he thought that private carriages had as much it not more right to pay such a tax as the wheelmen. Calculating upon the numbers of bicycles in the city he thought there were more than a thousand, and they were increasing all the time. In connection with this the following paragraph is interesting. On Sunday last it is estimated that 200,-000 bicycles were spinning along the highways of the metropolitan district, New York. Of this number 50,000 are believed to have made the trip to Coney Island, and an equal number or more to have ridden over the Riverside Drive in the Manhattan borough. Ten thousand wheel riders visited Camp Black to see the soldier boys. Seven hundred cyclists rode centuries, or covered 100 miles during the day, and 33 completed double centuries. One plucky little wheel-woman pedalled two hundred miles between half-past seven o'clock Saturday evening and five o'clock Sunday atternoon. and 23 other wheel-women covered 100 miles between sunrise aud sunset on the same day.

## PRICE FIVE CENTS

to be the same when he was here nearly all of his time and Moosepath today owes much of the improvement that it has received to his efforts.

Secretary Johnson of the Agricultural Society thinks that by the twelfth of July the horses that go on the border will be in shape again for a race in St. John. The classes are all fast and the purses are large. Arclight will be among the starters and Charlie Ward will no doubt have Sharon to the front with perhaps another for the other classes. Then Mary Mac is almost certain to be on hand and try conclusions with the speedy ones. Now that George Carvill is reinstated there is bound to be great interest between his stallion Speculation, and Arclight, and, if Calcandra should also appear at the same time, the association will be in a happy frame of mind. Mr. McCormick's Rose L. is to be reckoned with too this year, it is said. She is at present at the border, and will take part in the events there.

"It is not likely," said a well known horseman a few days ago, "that Special Blend will do much trotting early this season. He has not been worked to any extent and while it is stated that his throat has become all right again his training must be gradual and careful. Just now he may be seen in double harness with Cushings Pilot which Mr. Willis has here for a time and they make not only a speedy but a handsome team.

## A CONVENIENCE AND A NOVELTY.

A Steam Launch on the Lake at Ben Lomond.

friends, are asked to such a ceremony, it may be said that the suspicion of free house furnishings is apt to float around with considerable alacrity.

St. John is, fortunately, quite free from this sort of thing. Of course there are swell affairs, at which young people agree to share each others lot for life and all their triends are invited to see them start upon the matrimonial journey. Sometimes the invitation is secompanied by a ticket, which PROGRESS always had the idea was suggested of a performance rather than a ceremony, but that is somewhat a matter of taste. The good old bishop of Fredericton would never prevent the people from going into the Cathredal to witness a marriage ceremony by issuing tickets to a favored few in these later days opinions but changed and customs with have them. Ladies with fine dresses and new bonnets can now wear them with as much satety in a church, even at a marriage, as they can in the drawing room. The theatrical features of these big social events now-a days are not confined to the ceremony itself, for it is considered quite the proper thing to have at least one rehearsal before the original and only performance.

This has been a week of weddings in St. John. Why June is selected more than any other months for the celebration of these happy affairs is something that few understand. Nature was not smiling when the week opened and the most fashionable event of the week had for its sole disagree able feature, untavorable weather.

There are many amusing features to Detective Ring called shortly after, and the people honor it by and some weddings. The loveliest girl and Mr. C. E. cent!

Most young people when they embark upon the perilous matrimonial voyage like to be surrounded by their relatives and near friends rather than strangers but there are exceptions. The fact that a brother or a sister is not in the same fortunate circumstances as formerly is not regarded as a bar to admission but PROGRESS heard a funny story a few days ago which would seem to disprove this theory. "You know, Sam" said the prospective bride, speaking of her brother "is not in the same circle with us and besides his clothes are not such as would be fitting at such a ceremony as we propose to have. More than that he has grown so coarse !" Sam must have been vastly pleased at this sisterly expression.

#### McMichael Was a Cool One.

A rather good story is told in connection with the capture of the negro McMichael in the house of Ira Stewart. He was a cool customer, and his act of shaving his mustache and putting on Stewart's best suit was in keeping with the reception he gave Capt. Hastings and Officer Greer when they reached the place. McMichael was lying on a lounge as cool as possible, and when the officers asked for him he was prompt in replying that he was McMichael and asking their business. Then he proceeded to give such explanations, and told such a good story that the officers left without making an arrest. Capt. Jenkins and

#### Anxious to be Rid of Him.

The people of Douglas Avenue are proud of their street and its many new and handsome residences. Their one crumpled rose leaf, or perhaps it would be better to say very sharp thorn, is the proximity of Miser Oultons hut. This week the neighborhood was brought into unenvisble notoriety by the death of the miser's wife, and the attendant circumstances. The hut was in the filthiest condition where the death occurred, and the surroundings were was so altogether revolting that it in with difficulty those who went could manage to perform the necessary offices for the deceased. The hardened old husband prayed and entreated that he be put to no expense in the matter, and fixed the amount of expenditure at \$6.00. The woman was buried the same day she died.

Says He is Going to Call a Halt.

#### WHEN THE SEASON OPENS.

The Great Trotting Events on the Border and What Will Follow Here.

There are to be races at Moosepath on the 12th of July, the day that all the orangemen honor. Usually the first of July is selected but this year the stake races at St. Stephen come off on the Natal day of the Dominion, and all the available horses are booked for that event which will practically open the trotting season in this province. In Nova Scotia the season opens a few days earlier because the Natal day at Halifax is June 21st

House has a little steam yacht. That last word is probably a misnomer but at any rate he has a large boat which is propelled by steam. There is a degree of readiness about the vessel that is somewhat remarkable. No matter how busy the host and his help are it does not seem to be any trouble for any of them to get up steam in a few minutes. Soft wood is plenty and suitable for the purpose. The methods of preparing for a short cruise are as simple as possible. Only a few armloads of the wood are thrown in the bow and with one to watch the engine and another to steer, the boat is ready to go all around the big lake. Sail boats are not in it with the little steam launch. No time is lost on the way. Mr. Barker says that he can go from one end of the lake to the other in twenty minutes. He has used the launch as a tug a great deal this spring and summer and guides the small rafts of logs on the shores of the lake to where they were required. A favorable wind was of course necessary for this purpose but with that the rest was easy.

Sometimes there is such a gale of wind that the launch is useless. That was the case one day this week when a special party of four went to the Lake to spend some hours. Two of them had taken marriage vows early that morning and the others went along for company's sake. They did not enjoy the much looked for sail because old Boreas objected. But that only happens once in a while. The steam launch is a good sea boat and is usually available. Beside the convenience it sflords to pleasure seekers, sportsmen and others it is quite a novelty on an inland lake.

Superintendent Fraser of the school for the blind in Halifax says that there are many children who are blind or practically so who are not in the institution over which he presides where they would receive a suitable education which would assist in providing for their future. That this is true there is no reasonable doubt. In some of the country districts the people hardly know that there is an institution where blind children can be provided with an educatian. And this in spite of the advertising that the school has had ! In many cases there is no disposition to send a child so afflicted away from home. While this feeling is natural in parents yet they are neglecting the best interests of the child in thus depriving it of the advan-
