Every man watches his balance in the bank, and his balance in his cash account, pretty closely. There is an-

other ledger account that the average man entirely forgets to his own undoing. It is his account with death. It

is more important than a "profit and loss " account, for its a "life and death" account. It is a man's duty to himself and family to look up this account once every day and see that the balance is on the right side.

It doesn't pay to let this account run on, and have it debited with indigestion, and then impure blood, and finally nervous exhaustion, or prostration, or deadly consumption. When these diseases come it means a debit balance with death brought down in the blood red ink of another life sacrificed on the altar of foolish overwork and neglect of health. Dr. Pierce's Golden Medical Discovery makes the appetite keen, the digestion perfect, the liver active and the blood pure. It is the great blood-maker, flesh-builder and health-forger. It makes firm, healthy flesh, but does not produce corpulence or raise the weight above nature's normal. It cures 98 per cent. of all cases of consumption, bronchial, throat and
