ing a few days in town the guest of his daughter, Mrs. E. W. Givan of King street. Miss Stella Steeves returned to town on Monday after a month's visit to friends in Fredericton and St. John. Miss Agnes Peters is visiting friends in Woodstock N. B. Miss McAvity of St. John is spending a few days in town the guest of Mr. and Mrs. G. B. Forbes of Steadman street. Mr. F. W. B. Moore of the Bank of Montreal, Amherst, spent Sunday in town the guest of Mr. and Mrs. T. V. Cooke of Steadman street. Mr. and Mrs. E. H. Hall spent last Sunday at Buctouche. Mr. and Mrs. Edward B. Whitney of New York spent Sunday in town the guests of Rev. John and Mrs. Prince of Church street. Mrs. Whitney is a daughter of the celebrated astronomer Prof. Newcombe and a grand-niece of Mr. Prince. Moncton people heard with very deep regret yesterday of the removal of Mr. Grant M. Hall mechanical foreman of the I. C. R. who received notice a day or two ago that his services would be dispensed with in future. There have been rumors of the intended change for some days past but it was very generally hoped that they might not prove to be well founded as Mr. Hall was a competent and conscientious official and exceedingly popular with all classes. But rumor was right for once, and Moncton will miss a most public spirited and valuable citizen, while Mrs. Hall will be greatly missed in musical circles where she has been a decided acquisition. The closing meeting of the Summer School of Science was held on Friday in the Y. M. C. A. rooms and various notes of thanks were passed the citizens, the Board of School Trustees the Y. M. C. A. management the mayor and town council, Mr. Osmond of Hillsboro the post office officials Mr. Pottinger and various citizens individually all coming in for expressions of gratitude. The election of officers for the coming year and the re-election of patrons of the school also took place the session being closed in the evening by a most interesting lecture on the subject of birds by Mr. W. A. Hickman. Whether the lecturer's remarks will have the effect of lessening the number of stuffed birds worn as a millinery adornment by the Moncton ladies remains to be seen. The Union meeting of the Brotherhood of Locomotive Engineers is being held today and tomorrow in Moncton and the city is filled with strangers in consequence. IVAN.

FREDERICTON.

(Progress is for sale in Fredericton by Messrs W. T. H. Fenety and J. H. Hawthorne.) JULY 27.—Major Hemming and Officers of the R. E. C. I., entertained Colonel and Mrs. Maunsell and a large number of friends at the Barracks yesterday afternoon, at a garden party as a farewell to Mrs. Maunsell. The broad piazza in front of the quarters presented a gay appearance being tastefully decorated with flags. The band of the 71st. Batt. was stationed on the lawn and rendered some very choice selections. The afternoon proving an ideal summer's day the smart set were all there and some very pretty gowns were aired. Tennis, croquet and promenading proved quite sufficient for the pleasure of the guests, and of course the bear was in evidence, for what would the Officers' square be without the bear. Ices and refreshments were served on the veranda. Last evening Colonel Maunsell was dined by the officers of the Mess. The invited guests were—Col. Maunsell, Col. Vidal, Lieut. Gov. McClellan Premier Emmerson, Bishop Kingston, T. C. Allen, McLean St. John, Surg. Maj. Bridges, Mayor Fitchhead, A. J. Gregory, Collector Street and E. Winslow. THINGS OF VALUE.

There never was and never will be, a universal panacea, in one remedy, for all the ills to which the flesh is heir—the very nature of many curatives being such that were the germs of other and differently seated diseases rooted in the system of the patient what would relieve one ill, in turn, would aggravate the other. We have, however in Quinine Wine, when obtainable in a sound undisturbed state, a remedy for many and grievous ills. By its gradual and judicious use, the frail systems are led into convalescence and strength, by the influence which Quinine exerts on Nature's own restoratives. It relieves the drooping spirits of the frame, and gives life to the digestive organs, which naturally demand increased substance—results, improved appetite. Northrop & Lyman, of Toronto, have given to the public their superior Quinine Wine at the usual rate, and, in one opinion of scientists, this wine approaches nearest perfection of any in the market. All druggists sell it.

Speed of Electricity—The speed of electricity is so great that its passage from point to point along a conducting wire may be regarded as practically instantaneous. Various attempts have been made to measure the rate at which it travels, and observers with delicate instruments, have affirmed that it was not less than 114,000 miles per second, and in one or two places its speed was as high as 240,000 miles.

It may be only a trifling cold, but neglect it and it will fasten its fangs in your lungs, and you will soon be carried to an untimely grave. In this country we have sudden changes and must expect to have coughs and colds. We cannot avoid them, but we can effect a cure by using Bickel's Anti-Consumptive Syrup, the medicine that has never been known to fail curing coughs, colds, bronchitis and all affections of the throat, lungs and chest.

Scott's Manuscripts.—Scott put no great value on his manuscripts, which he probably had the most perfect and least altered that any author of high rank can show. The copy of "Old Mortality" was sold the first time for £33; last year it fetched £600. "The Lady of the Lake" and "Brother Rat" £1,200. Lockhart gave the manuscript of "Rob Roy" to Cadell, and it sold for £600.

They Never Fail.—Mr. E. M. Boughner, Largent, writes: "For about two years I was troubled with Inward Piles, but by using Parmentier's Pills, I am completely cured, and although four years have elapsed since then they have not returned." Parmentier's Pills are anti-bilious and a specific for the cure of Liver and Kidney Complaints, Dyspepsia, Costiveness, Headache, Piles, etc., and will regulate the secretions and remove all bilious matter.

A lemon bath.—In the West Indies a lemon bath is used as a daily luxury. Three or four lemons or lemons are sliced into the water and allowed to lie for half an hour, in order that the juice may be extracted. A remarkable sense of freshness and cleanliness is given to the skin.

How to Cure Headache.—Some people suffer up to 4 miserably every day with headache. There is no rest neither day or night until the nerves are all unstrung. The cause is generally a disordered stomach, and a cure can be effected by using Parmentier's Vegetable Pills, containing Mandrake and Dandelion. Mr. Finlay Wark, Lyssander, P. Q., writes: "I find Parmentier's Pills a first class article for Biliousness and headache."

During the siege of Paris no fewer than 22,000,000 letters sailed out of the city in the fifty-four balloons dispatched between the 15th of September, 1870, and the 28th of January, 1871.

In ten years the descendants of two rabbits will number 70,000,000.

The proprietors of Parmentier's Pills are constantly receiving letters similar to the following, which extol the merits of Parmentier's Pills. Mr. John A. Beam, Waterloo, Ont., writes: "I never used any medicine that can equal Parmentier's Pills for Dyspepsia or Liver and Kidney complaints. The relief experienced after using them was wonderful." As a safe family medicine Parmentier's Vegetable Pills can be given in all cases requiring a cathartic.

The total area of the coal fields in the world is estimated at 471,800 square miles. Barcelona is now the most populous city of Spain the result of census just taken showing 521,000 inhabitants to Madrid's 507,000.

There is Not a more dangerous class of disorders than those which affect the breathing organs. Nullify this danger with THOMAS' EMULSION OF PURE cod-liver oil, containing the efficacy of its curative and soothing when applied externally, as well as in the neck and crick in the back; and, as an inward specific, possess most substantial claims to public confidence. Married couples in Norway are privileged to travel on railways at a fare and a half.

Damp Spell.

"I suppose you are very glad that your husband is entirely cured of his rheumatism?" said a doctor recently to a fashionable lady of Germantown. "Yes, I suppose I ought to be," answered the lady, "but from now on we will have to guess at the weather or buy a barometer if his bones quit aching before a damp spell."
