Madame Harrison will be assisted by several talented ladies and gentlemen who are new to St. Croix audience and the concert will without doubt be the grandest and most brilliant given here this season, and much pleasure is anticipated by those who enjoy good music.

The "Musical" on Monday evening given by Miss Cora Maxwell at her pretty home in Milltown was the most delightful affair society has enjoyed for some time. The house was beautifully decorated with cut flowers and plants, palms, chrysanthemums and carnations were the flowers most prominently used in the decoration which was most tastefully and skillfully managed. Miss Maxwell was assisted in receiving her guests by her sister Mrs. J. Walker Moore. She was attired in a handsome gown of black silk trimmed with white chiffon, and wore a corsage bouquet of white chrysanthemums. Mrs. Moore wore an elegant dress of black broad cloth silk trimmed with jet and chiffon. A choice musical and literary programme was arranged for the entertainment of the guests, and Miss Maxwell was kindly assisted by the following ladies and gentlemen: Mrs. Hazen Grimmer who looked exceedingly well in a handsome gown of mauve and black silk, sang very tastefully the contralto song "He was a Prince." She was followed by Mrs. George J. Oiarke who sang "I am Waiting," very sweetly. Mrs. Clarke was attired in a lovely gown of black silk tissue, over black satin which was most becoming. Miss Florence Sullivan in a pretty frock of pale yellow and white silk, sang in her usual charming manner the song "Madrigal." Miss Mina McKusick, in a stylish costume of black and white chiffon, sang in a rich voice "Crossing the Bar" which delighted the guests, Miss Jean Sprague, then sang "Sunset" very prettily; she wore a gown of pink and black which was most becoming. Mr. Adam Gillespie and Mrs. Peters, gave a cornet solo, with piano accompaniment. Mrs. Verne Whitman sang a funny song called "The Quakers," and with a piano solo from Mr. W. A. Peterson and a reading and recitation from Mr. W. H. Edwards concluded a most delightful programme supper was served. During the evening fruit punch was dispensed by Mrs. Walker Moore. The guests departed to their homes about midnight having most thoroughly enjoyed themselves and many pleasant comments have been made on the graceful way Miss Maxwell had of entertaining.

The "Ys" held a sale of fancy articles in Elder memorial hall on Tuesday afternoon and evening. There were a number of tables presided over by pretty young girls. The table, where lovely things made of paper were sold, was the most attractive; many of the pretty trifles were fashioned by the skillful fingers of Mrs. George Babbitt, who took a great interest in the work of the "ys" during her stay here, and it was a general regret she was obliged to leave with her husband for Liverpool, N. S., before the sale came off. A candy table and the fancy work table also received a due share of patronage. Refreshments were served on the European plan. Mrs. C. H. Clark and Mrs. W. F. Todd presided at the charming dishes, concocting waffles, creamed oysters, and creamed fish. The proceeds of the sale will be used by the "ys" to enable them to dispense their kindness and noble charity on Thanksgiving Day. The "Harmony" club begin the first of their much enjoyed recitals for this season on Tuesday evening of next week, and will be entertained at "Wee, Wolde", the home of the president, Mrs. John Black, who has most kindly offered the use of her spacious parlors to the club to hold their recitals there every week during the winter.

#### THINGS OF VALUE.

A first-rate collection of insects about 25,000 perfectly distinct species. The first fire insurance company in England was established in 1696.

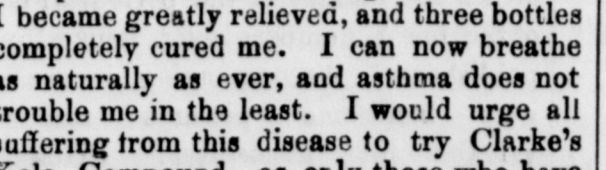

There never was, and never will be, a universal panacea, in one remedy, for all ills to which flesh is heir—the very nature of man's curatives being such that were the germs of other and differently seated diseases rooted in the system of the patient—what would relieve one in his worst agony, aggravates another. We have, however, in QUININE WINE, when obtainable in a sound unadulterated state, a remedy for many and grievous ills. By its gradual and judicious use, the most violent agerages lead into convalescence and strength, by the influence which Quinine exerts on Nature's own restorative. It relieves the drooping spirits of those with whom a chronic state of morbid despondency and lack of interest in life, is a disease, and, by tranquilizing the nerves, disposes to sound and refreshing sleep—imparts vigor to the action of the blood, which, being stimulated, courses throughout the veins, strengthening the animal function of the system, thereby making activity a necessary result strengthening the frame, and giving life to the digestive organs, which naturally demand increased substance—result improved appetite, Northrop & Lyman of Toronto, have given to the public their superior Quinine Wine at the usual rate, and, gauged by the opinion of scientists, this wine approaches nearest perfection of any in the market. All druggists sell it. Most of our misfortunes are more supportable than the comments of our friends upon them. Fame is the goddess who keeps her favorites names in the papers. Cholera morbi, cramps and kindred complaints annually make their appearance at the same time as the hot weather, green fruit, cucumbers, melons, etc., and many persons are debarrated from eating the tempting fruits, and for this reason, Dr. J. D. Kellogg's Dysentery Cordial, and take a few drops in water. It cures the cramps and colic in a remarkable manner, and is sure to check every disturbance of the bowels. The shilling you pay back looks twice as large as the one you borrowed. Civilization is the instinct of self-preservation cultivated into acute and far-reaching foresight. Thousands Like Her.—Tens McLeod, Severn Bride, writes: "I owe a debt of gratitude to Dr. THOMAS' ELECTRIC OIL for curing me of a severe cold that troubled me nearly all last winter." In order to give a quietus to a hacking cough, take a dose of Dr. THOMAS' ELECTRIC OIL three times a day, or often if the cough spells render it necessary. A passenger car on a steam railroad costs from \$4,000 to 5,000, a baggage car from \$2,000 to \$3,000, a sleeping car from \$10,000 to \$20,000. THEY NEVER KNEW FAILURE.—Careful observation of the effects of Parmelee's Vegetable Pills has shown that they act immediately on the diseased organs of the system, stimulate them to healthy action. There may be cases in which the disease has been long seated and does not easily yield to medicine, but even in such cases these Pills have been known to bring relief when all other so-called remedies have failed. These assertions can be substantiated by many who have used the Pills, and medical men speak highly of their qualities. An English penny changes hands 125,000 times in the course of life. Great Britain on May 13, 1861, France on June 10, 1861, Spain on June 17, 1861 recognized the Confederate States as belligerents. A PURELY VEGETABLE PILL.—Parmelee's Vegetable Pills are compounded from roots, berries and solid extracts of known virtue in the treatment of liver and kidney complaints and in giving tone to the system whether enfeebled by overwork or deranged through excess in living. They require no testimonial. Their excellent qualities are well known to all those who have used them and they command themselves to dyspeptics and those subjects of biliousness who are in quest of a beneficial medicine. One-twelfth of the population of England suffers from gout. A philosopher is a man who, having discovered that 2 x 2 = 4, makes a noise about it. Peculiar. Twynn: 'There's something very odd about this invention of Bunting's.' Triplett: 'What is odd about it?' Twynn: 'He does not claim that it will revolutionise the whole industrial world.'

A Well-Known Canadian Notary Public Suffered for 35 years—Permanently Cured by Clarke's Kola Compound.

R. D. Pitt, Esq., Kamloops, writes: I had suffered for at least 35 years from the great oppressiveness of asthma and shortness of breath. I tried Dr. Clarke's Kola Compound, and after taking the first bottle I became greatly relieved, and three bottles completely cured me. I can now breathe as naturally as ever, and asthma does not trouble me in the least. I would urge all suffering from this disease to try Clarke's Kola Compound, as only those who have suffered all these years as I have can appreciate what a blessing this remedy must prove to sufferers from asthma."
