> There is a world romance in the picture of a young girl reading her sweetheart's love-let-

ters. In a multitude of cases, if her future could also be pictured, the picture would contain a world of pathos. To the healthy, robust woman marriage means happiness, the supreme joy of motherhood and the promise of a long, healthy life of helpfulness with the man of

her choice. To the woman who suffers from disease or weakness of the delicate and important organs concerned in wifehood and motherhood, wedlock means suffering and maternity death. Dr. R. V. Pierce is an eminent and skillful specialist, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. During that time, with the assistance of a staff of able physicians, he has prescribed for thousands of women. The institute of which he is the head is one of the greatest in the world. He is a regularly graduated physician and has practiced right in one place for thirty years. The esteem in which he is held by his neighbors is shown by the fact that they chose him for their representative in the National Congress. The regard in which he is held by those whom he has treated is shown by the thousands of letters printed in Dr. Pierce's Common Sense Medical Adviser, telling of the benefits derived

from his treatment. Dr. Pierce is the discoverer of a wonderful medicine for women, known as Doctor Pierce's Favorite Prescription. It cures all weakness and disease of the feminine organs. It allays inflammation, heals ulceration and soothes pain. It tones the nerves. Taken during the interesting period, it banishes the usual discomforts and makes baby's advent easy and almost painless. Thousands of women have testified to its marvelous merits. An honest druggist

won't advise a substitute. The profit side of life is health. The balance is written in the rich, red, pure blood of health. Dr. Pierce's Pleasant Pellets cure constipation and make the blood rich and pure. They never gripe. By druggists.
