June 29 - Our bridal couples are returning home by degrees from their respective wedding trips, and I fancy next week will be largely devoted to the paying and receiving of calls. Mr. and Mrs. R. W. Simpson returned on Monday after a trip of nearly three weeks, spent principally in the different cities of Upper Canada but extending through some of the points of interest in Nova Scotia. I believe Mrs. Simpson will be at home to her friends at her home on Fleet street, on Thursday, Friday and Saturday of next week.

Hall also returned on Monday evening from their bridal journey which included a visit to St. Joh and a trip through Nova Scotia, Mr. and Mrs. Hall intend residing at the corner of St. George street and Harris Aver u ', and I fancy the young bride will also receive next week but I am not quite certain of the days.

Dr. and Mrs. W. H. Murray returned yesterday from Boston, where they have been spending their honeymoon, so we now have no less than three brides in town, all of whom will prob bly be receiving next week, should the weather be favo :able and permit them to appear in church next Snnday. Surely the clerk of the weather will take pity on the brides if not on the rest of the community and send us some fine weather, as June has scarcely sus" t ined its reputation for sunny skies this year.

The many friends of Mr. and Mrs. Bliss Ward, heard yesterday with very mixed feelings of Mr. Ward's promotion to the position of chief train dispatcher at New Glascow. Pleasure at Mr. Ward's well deserved advancement was largely tempered with regret that his promotion would mean the  $d\epsilon$ parture of Mrs. Ward and himself from Moncton, where they have lived for many years, and where they have hosts of friends. Mr. Ward left for his new field of work on Monday evening, and it is understood that Mrs. Ward will follow in the course of a few weeks.

Mr. and Mrs. W. H. Burns of Montreal, who have been visiting Mrs. Burns' mother Mrs. Samuel McKean of Main Street, returned home yesterday. Amongst the successful graduates of Newton Hospital, appears the name of Miss Lottle Corbett, daughter of Mr. Thomas Corbett of this city. Miss Corbett not only stood very high in the list of honors, but she can boast of being the youngest graduate ever turned out of Newton. Her numerous Moncton friends will be interested in her succe s. There never was and never will be, a universal panacea, in one remedy, for all the ills to which the flesh is heir-the very nature of many curatives being such that were the germs of other and indifferently seated diseases rooted in the system of the patient- what would relieve one ill, in turn, would aggravate the other. We have, however in Quinine Wine, when obtainable in a sound unadulterated state, a remedy for many and grievous ills. By its gradual and judicious use, the trailest systems are led into convalescence and strength by the influence which Quinine exerts on Nature's own restoratives. It relieves the drooping spirits of those with whom a chronic state of morbid despondency and lack of interest in life is a disease, and, by tranquilizing the nerves, disposes to sound and refreshing sleep-imparts vigor to the action of the blood, which being stimulated, courses through the veins, strengthening the healthy animal functions of the system, thereby making activity a necessary result, strengthening the frame, and giving life to the digestive organs, which naturally demand increased substanceresults, improved appetite. Northrop & Lyman of Toronto, have given to the public their superior Quinine Wine at the usual rate, and, gauged by the opinion of scientists, this wine appoaches nearest perfection of any in the market.
