DEC. 20 .- The Weil String Quartette Concert came off successfully in the Convervatory of Music last week in the presence of a fashionable and appreciative audience, and at which Miss Margaret White made her musical dabut. This young lady in her playing displayed splendid execution, a thorough knowledge of technique, combined with wonderful expression, which is the soul of music Mrs. Currens song was charmingly rendered, and we will look forward to hearing her again in the near future. Too much praise cannot be given to the "Quartette." They gave us first-class music, which was rendered in a masterly manner.

The Shakespeare class is still in a most flourishing condition. At each meeting there has been a marked increase in the number of students. On Saturday of last week the large assembly hall at the Conservatory was filled, every seat was "eccupied, the class s at present reading "Macbeth." A goodly number of 'volunteers' acceded to Dr. Black's wish and read the play aloud, each reader impersonating a charater. Among those who were generous enough to add so much interest to the afternoons proceedings were Mrs. Kennedy-Campbell, Miss Leech, Col. Collard, Mr. Hamilton, Mr. Allen and several other ladies and gentlemen.

Almost immediately after X mas we are to have a very pretty wedding-that of Miss Oliver. The ceremony is to be held in the "Garrison," so that in every detail it promises to a military wedding. The young lady is one of the greatest favorites in

They contemplate taking an extended tour before reaching their final destination-England. From Halifax they go first to Vancouver and from thence over to Hong Kong.

Miss Winnie Burns has returned to Halifax'after a visit of some months among various cities in the Upper Provinces. She will spend Xmas at "Maplewood."

A SEA OF FLAME. On the evening of November, 28th, 1878, fire broke out in the British ship Melanie, loaded with 500 barrels of petroleum. An awful mass of flames shot up from the main hatch and the vessel quivered from stem to stern with explosion of the barrels. Her seams opened and the blazing petroleum poured out into the river, spreading a belt of fire around her. The master and seamen jumped overboard. Captain Sharp, whose vessel was lying close-by, propelled a small boat through the blazing river and after a severe scorching and imminent peril, saved the seamen from a horrible death.

All over civilization there are thousands of men in more imminent danger than were those seamen. They are threatened with consumption or are already in the clutch of that deadly disease. If they only knew it, help is at hand. Dr. Pierce's Golden Medical Discovery cures 98 per cent. of all cases of consumption. It also cures bronchitis, asthma, throat and nasal troubles and all diseases of the air passages. It is the great blood-maker, flesh-builder, and nerve-tonic. It makes the appetite hearty, the digestion perfect and the liver active. The "Golden Medical Discovery" is the product of that eminent specialist, Dr. R. V. Pierce, who. during the thirty years that he has been chief consulting physician to the great Invalids' Hotel and Surgical Institute, at Buffalo, has treated more cases than fifty ordinary physicians treat in a lifetime. Thousands given up by doctors, have testified to complete recovery under this marvelous medicine.

Constipation causes and aggravates many serious diseases. It is speedily cured by Dr. Pierce's Pleasant Pellets.

Speaking of dances, the ball given by Colonel Turner, the American Censul and Mrs. Turner was a very brilliant ore. Ottawa is rich in women's societies just now, and one of the most interesting is the Historisociety of Ottawa lately formed, and of which I think I wrote you. Last week a very delightful literary conversazione was held at the residence of the secretary of the sociation Mrs. Ahearn. Several papers on the éarly days of Bytown were read, one by the first female white child born in the village. It is strange to think that seventy years ago the regions of the upper Ottawa were considered a wild inaccessible district and that even in 1826 the houses of Bytown were hidden from the sight of one another by the forest which people had not time to clear away. The benefit of such an historical society has already been demonstrated by the information gained about those bygone days In one of the rooms thrown open to the guests at this conversazione relics of Bytown and its founder

were on exhibition. Colonel By's chair was there, in which no lesser personage than Edward, Duke of Kent. father of Queen Victor'a, once sat.

Sir Wilfred and Lady Laurier were recently presented with a nugget of virgin gold, worth ninety dollars, by a Klondike capitalist, W. Joseph Barrett. The premier and Lady Laurier will spend Christmas in Artnabaskaville, Quebec. Zor.
