day and age almost without exception, protect themselves against smallpox, by vaccination. Consumpyear more people than small-/ pox, cholera, yellow fever and all known

plagues kill in fifty. Tens of thousands of intelligent people recognize that they are threatened by this deadly disease, but take no precautions against it.

Consumption approaches its victim step by step. First there is a little "out of sorts" feeling, the digestion isn't just right, the appetite falls off, the liver is inactive, the assimilation of the life-giving elements of the food is imperfect, the blood gets impure and the body is improperly nourished. These conditions get worse and worse. The heart through the arterial system is pumping thin, poisonous blood into every organ of the body. The organs that are inherently weakest break down first. Ordinarily the lungs. As the last straw that breaks the camel's back comes a cold, however slight. This, with the accompanying cough, completes the work and an invasion of the germs of consumption follows. Dr. Pierce's Golden Medical Discovery cures 98 per cent. of all cases of consumption. It corrects the conditions that lead up to it. It is the greatest blood-maker and flesh-builder known.

K. C. McLin, Esq., of Kempsville, Princess Anne Co., Va., writes: "When I commenced taking your 'Discovery' I was very low with a cough, and at time least much blood. I was not able to do the least work, but most of the time was in bed. I was all run-down, very weak, my head was dizzy, and I was extremely despondent. The first bottle I took did not seem to do me much good, but I had faith in it and con-tinued using it until I had taken fifteen bottles, and now I do not look nor feel like the same man I was one year ago. People are astonished, and say, 'well, last year this time I would not have thought that you would be living now.' thankfully say I am entirely cured of a disease which, but for your wonderful 'Discovery,' would have resulted in my death."

Since Mrs. Colgate left Balliston Spa. she has been located at her own country seat at New Hamburg. Not long after Mrs. Colgate returned here her friends were informed that she had concluded to reside permanently in England.
