Nov. 30.—As it is rather the off season for conventions and even our indefatigable little city could scarcely succeed in getting one up with Christmas so near, we have substituted a revival for the usual convention to which we have become so accustomed that Monton does not seem natural without some excitement of the kind. In spite of the weather which has continued persistently and unacceptably bad for the past three weeks the meetings have been wonderfully well attended and the greatest interest manifested, and Rev. A. J. Wheeler and Dr. S. A. Haggitt who have had charge of the meetings should feel gratified by the success which seems to have attended their efforts. For the past two weeks these evangelists have been holding two services a day under the auspices of the Y. M. C. A. and no less than seven churches have co-operated in the good work. The farewell services took place on Monday evening at the First Baptist church, and the large building was nearly filled, in spite of the fact that even the city streets were almost impassable. Addresses were delivered by Mr. McWilliams general secretary of the Y. M. C. A., Rev. Mr. Godge of the Central Methodist church, Rev. W. B. Hewson of First Baptist church, Rev. Mr. Parker, of the Free Baptist church as well as Rev. Mr. Wheeler and his colleague Dr. Haggitt. The evangelists left by the C. P. train yesterday for Sussex where they intend holding a revival.

The numerous friends that Miss Tritton made during her two year's residence in Monton were heartily glad to see her in town again last week, and only regretted that her stay was so short. Mr. Chapman has been employed as quarter-master on one of the large coast steamers and as no particulars of his illness are given the family naturally feel the greatest anxiety concerning him.

THINGS OF VALUE.

When other people spend money in a way that we don't they are extravagant, and when they don't spend money in a way that we do they are stingy.

Selfishness does not consist in pushing one's own interests, but in ignoring others interests.

There never was, and never will be, a universal panacea, in one remedy, for all ills to which flesh is heir—the very nature of man's curatives being such that were the germs of other and differently seated diseases rooted in the system of the patient—what would relieve one ill in turn would aggravate the other. We have, however, in Quinine Wine, when obtainable in a sound undaunted state, a remedy for many and grievous ills. By its gradual and judicious use, the frailties of the system are led into disrepair and strength, by the influence which Quinine exerts on Nature's own restorative. It relieves the drooping spirits of those with whom a chronic state of morbid despondency and lack of interest in life is disease, and, by tranquilizing the nerves, disposes to sound and refreshing sleep—imparts vigor to the action of the blood, which, being stimulated, courses throughout the veins, strengthening the animal function of the system, thereby making activity a necessary result strengthening the frame, and giving life to the digestive organs, which naturally demand increased substance—result improved appetite, Northrop & Lyman of Toronto, have given to the public their superior Quinine Wine at the usual rate, and, gauged by the opinion of scientists, this wine approaches nearest perfection of any in the market. All druggists sell it.

The meanest people always have the longest memories.

The large cables of the Brooklyn bridge were made on the bridge. Wires one-eighth of an inch in diameter were passed forward and back from one anchorage to another; 279 wires were bound into one rope, and nineteen of these ropes were bound into one cable.

Some people seem to feel that they have been treated very badly every time anybody they know succeeds.

Some persons have periodical attacks of Canadian cholera, dysentery or Diarrhoea, and have to use great precautions to avoid the disease. Change of water, cooking, and green fruit, is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed no further trouble will be experienced.

Failure consists in giving up, not in succeeding.

Attached to the army of Norway is a corps of skaters armed with rifles. They are stationed on the ice or over the snowfields of the mountains with a rapidity equal to that of the best-trained cavalry.

Always on Hand.—Mr. Thomas H. Porter Lower Ireland, F. Q., writes: "My son, 18 months old had a cold that not only gave him relief until a neighbor brought me some of Dr. THOMAS' ELECTRIC OIL, which I gave him, and in six hours he was cured. It is the best medicine I ever used, and I would not be without a bottle of it in my house."

Fortunately for himself, the man who knows it all doesn't seem to know what other people think of him.

It is said that herrings are so prolific that if a pair of them could be left to breed and multiply undisturbed for a period of twenty years they would yield an amount of fish equal in bulk to the entire earth.

An End to Bilious Headache.—Biliousness which is caused by excessive bile in the stomach, has a marked effect upon the nerves, and often manifests itself by severe headache. This is the most distressing headache one can have. There are headache from cold, from fever and from other causes, but the most excruciating of all is the bilious headache. Parmelee's Vegetable Pills will cure it—cure it almost immediately. It will disappear as soon as the pills operate. There is nothing surer in the treatment of bilious headache.

A medical authority in Berlin declares that not one of Germany's professional bicyclists has a sound heart.

Madrid is the most elevated city in Europe. It is built on a mountain plain or plateau 2,300ft above the level of the sea.

They are not Violent in Action.—Some persons when they wish to cleanse the stomach, resort to Epsom and other purgative salts. These are speedy in their action but serve no permanent good. Their use produces incontinent chills and if persisted in they injure the stomach. Nor do they act upon the intestines in a beneficial way. Parmelee's Vegetable Pills answer all purposes in this respect, and have no superior.
