Mr. Wm. McLeod left on Monday for a visit to Rat Portage.  
Mr. A. Gilmore and family are at M. S. F. B. I. year's for the summer.  
**AUSTRALIA.**  
Something Regarding the Government of that Land.  
The government of the new commonwealth of Australia will have features resembling the government of Great Britain, the United States and Canada, and some feature peculiar to itself. Like that of the mother country and of every one of its self-governing colonies, it will be administered by a cabinet responsible to the popular branch of legislature.  
For the legislature of Australia borrows the American idea: a Senate, consisting of an equal number of members, six, for each state, and a House of Representatives based upon population. Members of both houses are to be elected by universal suffrage. Another American idea is adopted in a federal supreme court, which will decide all questions between two states or between the commonwealth and any state, from which there will be no appeal, even to the privy council of Great Britain.  
As in Canada, the nominal head of the government, the representative of the sovereign, will be a governor general appointed by the British ministry and not removable by the Australian government. The finances of the commonwealth, too, will be conducted on the Canadian plan, for after the general expenses are paid, the balance is to be distributed in fixed proportion among the states.  
The greatest novelty in the new constitution is the provision for the event of a 'deadlock between the two houses. In that case, both houses are to be dissolved and new houses elected; and if the deadlock is renewed, the question at issue is to be decided by a majority vote in a joint convention.  
The capital of the new commonwealth—as in the case of both Canada and the United States—is to be removed from the controlling influence of the great commercial cities. It is to be in the State of New South Wales, but at least one hundred miles from Sydney.  
Starting with a population of more than three and a half million, and with six states,—for New Zealand will not join it at present,—the great democratic commonwealth of the Southern Hemisphere should have, and will have, most cordial wishes  
**TO CURE A COLD IN ONE DAY.**  
Take Laxative Bromo Quinine Tablets. All Druggists refund the money if it fails to cure. 25c

## WHO IS HAPPY?

The healthy mother of a healthy child has a happiness all her own. Her's is a joy that cannot be told. It is peculiar to motherhood. The responsibility for the soft little, sweet little, dependant creature

—as much a part of herself as her own heart—brings a pleasure that may be equaled in Heaven, but never on earth. The greatest thing that can be done in this world is to bear and rear healthy, happy children. Many women do not do it—do not reach the full measure of beautiful, perfect womanhood, because of the neglect of the health of the organs distinctly feminine.  
Every woman may be perfectly healthy if she chooses. She need not submit to the humiliating examinations and local treatment of physicians. She need have no trouble and slight expense. Doctor Pierce's Favorite Prescription will cure any disease or disorder peculiar to women. It is the invention of a regularly graduated, skilled, expert, successful specialist. It has been sold for over 30 years, and has a greater sale than all similar medicines combined. It regulates every feminine function—makes a woman better able to bear children—better able to take care of her children. It greatly lessens the pain and danger of parturition. No honest druggist will offer you a substitute—look out for the one who does.  
"My illness was caused by lack of medical attention during child-birth, and lasted for a period of three years, during which my suffering was almost indescribable," writes Mrs. Edith Petty, of Texanna, Cherokee Nation, Indian Territory. "My constitution was strong and health good up to that time. Owing to injuries received, rupture, internal displacement, etc., I became a physical wreck. I think it was a constant state of pain that brought about a nervous collapse, and it would be impossible for me to tell you the degree of torture I underwent from the time that set in. I became so nervous I feared insanity. The nervous disorder seemed to affect my heart. The slightest shock would bring on a spell of palpitation which would last for two hours and over; this would be succeeded by a smothering spell which was suffocating in the extreme. I became so reduced in strength and the nervous trouble so far advanced that I could take no solid food. When I could eat (no matter how little) I would get so nervous it seemed that I must die. To make matters worse I was seized with an almost insane fear of death. My tortures were awful in the extreme. I at length consulted the highest medical authority in the Creek Nation. An examination was made. The doctor informed me that recovery was impossible without the aid of a surgical operation, the rupture and displacements must be reduced; that no amount of medicine would effect a cure. Four months later, this doctor with the assistance of three others performed the operation. For twelve days I was kept under the influence of the strongest opiates. At the end of that time I was discharged from his professional care, supposed to be cured. For about ten days my nerves were more quiet, owing to the effect of the opiates. Shortly after this the former troubles returned with renewed force. I again consulted the surgeon. He said all I required was change of scenery, exercise of will power, etc., intimated that I was inclined to be hysterical; prescribed a nerve medicine of temporary effect, and said he could do no more. Monthly periods ceased entirely. On account of this last trouble my mother bought a bottle of Dr. Pierce's Favorite Prescription. I took the medicine after meals according to the directions. It had a soothing effect on the nerves. Soon after this I wrote a letter to your establishment describing my ailments, and in return I received a communication giving a complete diagnosis of the case, and advising a course of Dr. Pierce's medicines. I took in all twelve bottles—six of the 'Golden Medical Discovery' and six of the 'Favorite Prescription.'  
Thanks to an All-wise Providence and Dr. Pierce's medicines, the disagreeable symptoms have all disappeared. I can now do a hard day's work, eat anything and everything I wish. I regard my recovery as permanent, for it is nearly two years since I stopped taking Dr. Pierce's medicines, except the 'Pleasant Pellets,' which I always keep on hand."

## GOOD Printing

The "Leschetitzky" Method"; also "Synth. System" for beginners. Apply at the residence of Mr. J. T. WHITLOCK

# BLOODLESSNESS,

Or as Doctors Say "Anæmia" is Cured By Dr. Chase's Nerve Food.

An anæmic person is usually weak, listless and pale. He gets out of breath on slight exertion, the pulse is rapid and weak and the sleep frequently disturbed. The feet and hands are cold, ankles swollen at night and there is puffness under the eyes in the morning.  
Since the cause of anæmia is lack of a sufficient quantity of red blood corpuscles in the blood, a cure can only be effected by a treatment which will increase the number of red corpuscles and so improve the quality of the blood.

## DR. CHASE'S NERVE FOOD

Contains the very elements which are found lacking in the blood of an anæmic person. It creates new red corpuscles and on this account has proved wonderfully successful as a positive cure for pale, weak, men and women suffering the ills of poor blood and exhausted nerves, 50 cents a box, at all dealers, or EDMANSON, BATES & CO., Toronto.
