The Journey of Womanhood.

When a young girl develops the first evidences of womanhood, it is as if she were starting alone upon a strange journey beset with rough and dangerous places.

Young girls suffer a vast amount of unnecessary pain and misery for lack of frank and confidential instruction about their own physical selves.

The special weaknesses and diseases incident to woman's organic development are completely and permanently remedied by the "Favorite Prescription" prepared by Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y.

More than 90,000 cases of obstinate female difficulties have been absolutely cured by this wonderful "Prescription." It heals, strengthens and completely rejuvenates the tissues and nerve-centers of the feminine organism.

Mothers and daughters may consult Dr. Pierce by letter without charge and in the most absolute confidence. Their letters will be answered not by any mere nurse, but by an educated skilled physician.
