The American working man, while he works shorter hours, works harder than the working man of any other nation. He works not only with his hands but with his head. He is an intelligent worker and produces more in a given length of time than the worker of any other nation. He not only exhausts himself physically, but mentally; not only muscularly, but nervously. The consequence is that while he is better fed and better housed, he is not, as a rule, as healthy a man as his brother working-man of European countries. Moreover, like all Americans, the American working man is prone to disregard his health and frequently even takes pride in abusing it. It rests with American wives to protect their husbands in this respect. A little watchfulness on the part of the wife will frequently save her husband from a long spell of ill-health and possibly from some fatal illness. When a man feels "out of sorts" it is because his digestion is disordered or his liver is torpid. Dr. Pierce's Golden Medical Discovery will promptly correct these disorders. It is the great blood-maker and flesh-builder. It restores the appetite, makes digestion perfect and the liver active. It purifies the blood and tones the nerves. It cures 98 per cent. of all cases of consumption, bronchitis, asthma, weak lungs, lingering cough, spitting of blood and disease of the throat and nasal cavities. Thousands have told the story of its wonderful merits in letters to Dr. Pierce. It may be had at any medicine dealer's "out of sorts" it is because his digestion is disordered or his liver is torpid.
