WHO IS HAPPY?

The healthy mother of a healthy child has a happiness all her own. Her's is a joy that cannot be told. It is peculiar to motherhood. The responsibility for the soft little, sweet little, dependant creature

—as much a part of herself as her own heart—brings a pleasure that may be equaled in Heaven, but never on earth. The greatest thing that can be done in this world is to bear and rear healthy, happy children. Many women do not do it—do not reach the full measure of beautiful, perfect womanhood, because of the neglect of the health of the organs distinctly feminine.

Every woman may be perfectly healthy if she chooses. She need not submit to the humiliating examinations and local treatment of physicians. She need have no trouble and slight expense. Doctor Pierce's Favorite Prescription will cure any disease or disorder peculiar to women. It is the invention of a regularly graduated, skilled, expert, successful specialist. It has been sold for over 30 years, and has a greater sale than all similar medicines combined. It regulates every feminine function—makes a woman better able to bear children—better able to take care of her children. It greatly lessens the pain and danger of parturition. No honest druggist will offer you a substitute—look out for the one who does.

"My illness was caused by lack of medical attention during child-birth, and lasted for a period of three years, during which my suffering was almost indescribable," writes Mrs. Edith Petty, of Texanna, Cherokee Nation, Indian Territory. "My constitution was strong and health good up to that time. Owing to injuries received, rupture, internal displacement, etc., I became a physical wreck. I think it was a constant state of pain that brought about a nervous collapse, and it would be impossible for me to tell you the degree of torture I underwent from the time that set in. I became so nervous I feared insanity. The nervous disorder seemed to affect my heart. The slightest shock would bring on a spell of palpitation which would last for two hours and over; this would be succeeded by a smothering spell which was suffocating in the extreme. I became so reduced in strength and the nervous trouble so far advanced that I could take no solid food. When I could eat (no matter how little) I would get so nervous it seemed that I must die. To make matters worse I was seized with an almost insane fear of death. My tortures were awful in the extreme. I at length consulted the highest medical authority in the Creek Nation. An examination was made. The doctor informed me that recovery was impossible without the aid of a surgical operation, the rupture and displacements must be reduced; that no amount of medicine would effect a cure. Four months later, this doctor with the assistance of three others performed the operation. For twelve days I was kept under the influence of the strongest opiates. At the end of that time I was discharged from his professional care, supposed to be cured. For about ten days my nerves were more quiet, owing to the effect of the opiates. Shortly after this the former troubles returned with renewed force. I again consulted the surgeon. He said all I required was change of scenery, exercise of will power, etc., intimated that I was inclined to be hysterical; prescribed a nerve medicine of temporary effect, and said he could do no more. Monthly periods ceased entirely. On account of this last trouble my mother bought a bottle of Dr. Pierce's Favorite Prescription. I took the medicine after meals according to the directions. It had a soothing effect on the nerves. Soon after this I wrote a letter to your establishment describing my ailments, and in return I received a communication giving a complete diagnosis of the case, and advising a course of Dr. Pierce's medicines. I took in all twelve bottles—six of the 'Golden Medical Discovery' and six of the 'Favorite Prescription.'

"Thanks to an All-wise Providence and Dr. Pierce's medicines, the disagreeable symptoms have all disappeared. I can now do a hard day's work, eat anything and everything I wish. I regard my recovery as permanent, for it is nearly two years since I stopped taking Dr. Pierce's medicines, except the 'Pleasant Pellets,' which I always keep on hand."

Mr. Gilmor has been moving about the islands, securing views of the fishermen respecting a proposed change in the lobster regulations. He made a brief stay here.

Mr. and Mrs. Robt. Bell, of Grand Manan, were in St. Andrews on Saturday returning from a trip up country.

Capt. Andrews has so far recovered from his recent severe illness as to be able to get out.

Mr. Charters is to succeed Mr. Vessey as Bank of Nova Scotia agent at St. Andrews for a time. He made his first call on Monday last.

Ballad of the Breeze.

Sir Thomas sat on the quarterdeck,
And he thought full thoughtful;
And he said to his crew:
"This will never do,
We must have more wind, d'ye see?"

"I appeal to your honest British hearts,
I appeal to your Irish souls,
I appeal to the Dutch,
And the Scotch, as much
As I do to the two young Poles."

"I appeal to the Hindoo members, too,
I appeal to the Chinese cook
That ye get together
And raise some weather—
Some wind around Sandy Hook."

Sir Thomas paced by the galley fire,
And he spoke with a saddened face:
"To think, old-sonds,
With my millions pounds,
I can't raise the wind for a race!"

The Scotchman got him a bicycle pump,
The Hindoo a bellows great,
The Chinese cook
A big fan took
And the wind tried to agitate.

The Irishman stood on the main's yard,
And coaxed with his whiskers fine,
But the needed breeze
He couldn't tease,
Or bring from off the brine.

Then over the rail came a cheery hall,
And it said: "Oh, cease your cryin',
No need for sorrow,
There'll be wind to-morrow—
We've sent for Billy Bryan!"

THINGS OF VALUE.

Humility is a virtue, but stooping too low to accomplish too little is a mistake.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc. in the market.

Specialists tell us that by their work man will live longer. Considering their fees, he ought to be a second Methuselah.

Worms cause feverishness, moaning and restlessness during sleep. Mother Graves' Worm Exterminator is pleasant, sure and eff. causal. If your druggist has none in stock, get him to procure it for you.

Pass—Miss Tabby gave a concert last night. Pity—How was it? Pity—A howling success.

Is there anything more annoying than having your corn stepped upon? Is there anything more delightful than getting rid of it? Holloway's Corn Cure will do it. Try it and be convinced.

Bashful Lover—"Can you tie a true lover's knot, Miss Fanny?" She—"No"; but the clergyman round the corner can.

There is not a more dangerous class of disorders than those which effect the breathing organs. Nullify this danger with Dr. THOMAS' EXPECTORANT. O.L.—a pulmonary acknowledged efficacy. It cures lameness and soreness when applied externally, as well as swollen neck and crick in the back; and, as an inward specific, possesses most substantial claims to public confidence.

When he reaches thirty-five, a man has given up the desire to have the whole world love him, and is satisfied if one person believes him fair and honest.

A Cure for Fever and Ague.—Parslee's Vegetable Pills are compounded for use in any climate, and they will be found to preserve their powers in any latitude. In fever and ague they act upon the secretions and neutralize the poison which has found its way into the blood. They correct the impurities which find entrance into the system through drinking water or food and it used as a preventive fevers are avoided.

"I utterly refuse your proposition of marriage! Do I not make mys-if plain?" "Nature has forestalled you," he said, getting in his words with deadly effect.

Just the Thing That's Wanted.—A pill that acts upon the stomach and yet is so compounded that certain ingredients of it preserve their power to act upon the intestinal canal, so as to clear them of excreta, the retention of which cannot but be harmful, was long looked for by the medical profession. It was found in Parslee's Vegetable Pills, which are the result of much expert study, and are scientifically prepared as a laxative and an alternative in one.

Charles—"You say he fell in love with you at first sight?" Ethel—"Yes, but I don't know whether I ought to believe him." Charles—"Oh, I would. There's no accounting for men's vagaries, my dear; they sometimes do the silliest things imaginable."

"The average amount of sickness in a man's life is nine days out of the year," said a traveler to his neighbor aboard the ocean steamer. "I can't see how you make that out," said the neighbor in turn. "It takes six days to go over and six days to come back on the fastest ships."

If there is nothing in a man, his "opportunity" never comes.

BETTER THAN TALK

Is the Evidence of People Who Have Been

Benefitted by the Use of

Dr. Chase's Kidney-Liver Pills.

If the readers of this paper could only investigate the evidence which comes to these offices in the form of letters of gratitude, they could not but have the utmost confidence in the great curative powers of Dr. Chase's Kidney-Liver Pills.

Here is a plain, modest statement from Mr. Thomas T. Blair, St. Marys, York Co., N. B., who had been a great sufferer from kidney disorders: "I have derived a great deal of benefit from the use of Dr. Chase's Kidney-Liver Pills, and can with all confidence recommend them to persons suffering as I have from kidney disease."

Dr. Chase's Kidney-Liver Pills act naturally on the kidneys, liver and bowels. One pill a dose, 25 cts. a box. At all dealers, or EDMANSON, BATES & CO., Toronto.
