The Story Teller.

In eastern countries, in place of our story-tellers, they have professional story-tellers. It is their art to interest their listeners with tales of love, and marvelous adventures, and hair-breadth escapes, and magic cures. There's a story of a wonderful medicine that has made thousands of cures that seemed almost magical, which every woman should read or hear. To have heard it or to read it, may save a woman her own life or that of her husband. The medicine is the discovery of Dr. R. V. Pierce, an eminent and skillful specialist, for thirty years chief consulting physician to the great Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. It is known as Dr. Pierce's Golden Medical Discovery. It makes the appetite hearty, the digestion perfect, the liver active, the blood pure and rich, the nerves steady, the brain clear and the body strong. It is the great blood-maker and flesh-builder. It cures 95 per cent. of all cases of consumption and diseases of the air-passages. It cures nervous diseases and is the best medicine for overworked men and women. A woman may save her husband's life by keeping a bottle in the house, and getting him to resort to it when he feels out-of-sorts. All men are heedless about their health. Medicines stores sell it. Doctor Pierce's reputation is world-wide, and his fellow townsmen, of Buffalo, N. Y., think so highly of him that they made him their representative in Congress, but his great love for his profession caused him to resign that honorable position that he might devote the remainder of his life to the relief and cure of the sick. Another good thing to have in the house is a vial of Dr. Pierce's Pleasant Pellets. They cure biliousness and constipation and never gripe.
