The ball on Thursday (tenight) t Admiralty hous is anticipated with keen interest in society circles. Over four hundred invitations have been issued and being the last of the season, it promises to be a brilliant affair. Let us hope Lady Bedford will be as fortunate as other hostesses have been during the last few weeks, in having the clerk of the weather smile serenely on their brilliant functions. A fine night is an invaluable adjunct towards ren dering any entertainment successful.

A me ting of the Orpheus club committee took place recently to arrange about the coming subscription concerts. We hope they intend giving us something-well, perhaps a bit livelier than that which f ll to our lot last year. There was, in our humble opinion, rather too much sameness in the programme. The chorus was certainly good, but just the same, a few more solos would be an im-

At St. Stephen's chapel, last Sunday morning. Rev K. C. Hind, in a touching and eloquent manner referred to the departure of the Canadian regiment, particularly the Nova Scotia contingent, and the nmber of men in whom so many of the congregation were in various ways interested.

Captain Stairs, he said, had for years been a most consistent and faithful member. As treasurer and business manager of the chapel, his services had been invaluable and would not soon be forgotten by the church and people.

In a most impressive address the rector dwelt on the fitness of Mr. Stairs for the command of the volunteers; his high charac er and example would be appreciated, not only by his company, but by all who would come in c'ose contact with him. His executive ability, combined with a high idea of his country's honor, made him the beau-ideal of a commander, a courageous leader and a faithful friend and counsellor. In Mr. Stairs, Canada, Neva Scotia and Halif, x had a splendid representative in the field of peril and honor to which the performan e of duty had called him.

A Panacea for

A panacea, a cure for all Colds is the only word that nearly describes "Seventy-Seven' for Grip and Colds-you don't have to distinguish between a Cough and Bronchitis-between a Sore Throat and Diphtheria—between Influenza and Catarrh -between Hoarseness and Laryngitis or Clergyman's Sore Throat—between Pleurisy and Pneumonia, because "77" cures all Colds. As soon as you realize that you have taken Cold, and everyone knows that, take "77" at once; it restores the checked circulation (known by a chill or goose flesh); starts the blood coursing through the veins and "breaks up" the Cold.
