CHATHAM.

Jan. 31.—Curling is about all we hear around
town these days. About sixty of our men have the
fever so badly that they talk curling at table, dream
about it at night and spend most of their spare time
at the rink. There are two comfortable ante-rooms
separated from the ice by glass partitions and these
are often well filled with ladies who take a great
interest in the games and become quite excited over
good shots. They often remain till the end of the
evening to give their lords the pleasure of their
company home and the younger girls drop in to see
the finish and the boys were to see them
safely home of course, so the rink is becoming a
favorite resort for both sexes.

But.

Once there was a maiden fair,
A many years ago,
With laughing eyes and misty hair,
A many years ago.
And when the golden sun had fled
Beyond the hills and day was dead,
Unto her door a brave youth sped,
A many years ago.

Adown the winding lane, they strayed,
A many years ago,
While Cupid on their heartstrings played,
A many years ago.
And moonlight were the summer skies,
And love-light glistened in their eyes,
And earth to them was paradise,
A many years ago.

The maiden fair and gallant swain,
A many years ago,
Husband and wife at last became
A many years ago.
But not each other did they wed;
She married a man whose wife was dead,
He married another maid instead,
A many years ago.

THINGS OF VALUE.

No one need fear cholera, or any summer com-
plaint if they have a bottle of Dr. D. Kellogg's
Dysentery Cordial ready for use. It corrects all
looseness of the bowels promptly and causes a
healthy and natural action. This is a medicine
adapted for the young and old, rich and poor, and
is rapidly becoming the most popular medicine for
cholera, dysentery, etc., in the market.

Sure Regulators—Mandrake and Dandelion are
known to exert a powerful influence on the liver and
kidneys, restoring them to healthful action, induc-
ing a regular flow of the secretions and imparting
to the organs complete power to perform their
functions. These valuable ingredients enter into
the composition of Parmelee's Vegetable Pills, and
serve to render them the agreeable and salutary
medicine they are. There are few pills so effective
as they in their action.

They Wake the Torpid Energies.—Machinery not
properly supervised and left to run itself, very soon
shows fault in its working. It is the same with the
digestive organs. U regulated from time to time
they are likely to become torpid and throw the

Pills were made to meet such cases. They restore
to the full the flagging faculties, and bring into
order all parts of the mechanism.
