THE GRIM MONSTER.

"All that tread the globe are but a handful to the tribes that slumber in its bosom." Of the multitudes that yearly join the multitudes already gone, oneseventh are the victims of that dread destroyer - consumption. There is cer-

grim monster-consumption-the threatened victim should take refuge in the use of the only known cure for that disease. Many doctors say that consumption is incurable. They are mistaken and thousands who have been rescued from the brink of death, after they were given up by the doctors, and all hope was gone, have testified to the fact over their written signatures. Dr. Pierce's Golden Medical Discovery cures 98 per cent. of all cases of consumption. It cures bronchitis,

asthma, weak lungs, spitting of blood, throat troubles, chronic nasal catarrh, and all diseases of the air passages. It acts directly through the blood, on the affected membranes and tissues, destroying all disease germs, allaying inflamma-tion and building healthy tissues. It makes the appetite keen and the digestion perfect. It is the great blood-maker and flesh-builder. Honest druggists won't insult your in-

telligence by endeavoring to persuade you to take an inferior substitute for the little added profit it may afford.

"I have been troubled with bronchitis for several years," writes Mrs. Orlin O'Hara, of Box 114, Fergus Falls, Ottertail Co., Minn. "In the first place I had sore throat; doctored with different doctors and took various medicines, but got no lasting relief. We had had Dr. Pierce's book, the 'Com-mon Sense Medical Adviser,' for a long time but had got careless about reading it up. One day we saw a new advertisement in the paper in regard to this medicine, and as I was suffering and had been raising a good deal from my throat, a sticky substance like the white of an egg, and could not sleep, and had about made up my mind that I would hardly live through the winter, we made up our minds to try Dr. Pierce's Golden Medical Discovery and 'Pellets.' After I had taken one bottle we thought we could see a little change. We sent and got another bottle of the 'Golden Medical Discovery' and also one of 'Favorite Prescrip-I took them alternately, and in a few days I began to see that I was better for certain. I took eight bottles of 'Golden Medical Discovery' and two of 'Favorite Prescription,' and, really, I have not felt as well in years. I sleep better than I have in twenty years, and am confident that if others have any such troubles they will be more than pleased if they try Dr. Pierce's medicines. I am not in favor of patent medicines as a rule. Have tried too many of them and found them a failure, but I do know that Dr. Pierce's medicines will do what is claimed for them if taken as directed and continued long enough." "I took a severe cold with sore throat,"

writes Mrs. S. A. Everhart, of Oard Spring, Scott Co., Ind. "Soon I began to cough; my right side was so sore that when I coughed it seemed as though my side would burst. I summoned the physician and he said that I had pleurisy. I took his medicine for some time and got some better, but it seemed I could get so far and no farther. All the spring and summer I used mustard plasters and fly blisters on my side and lungs. Finally between my shoulders began to ache so badly that I could hardly endure it and at times I would feel almost smothered. My breath would be so short that I could scarcely talk. It was a miserable feeling indeed. I read of ——'s Sarsaparilla being such a great medicine, so I concluded to try it. I got two bottles of it and when I had taken the medicine I was no better. I was becoming discouraged; several of my near relatives had died with consumption and I thought I was about to go the same and I thought I was about to go the same way. I thought I would try Dr. Pierce's Golden Medical Discovery. I took two bottles of the 'Discovery' and two bottles of the 'Pleasant Pellets.' By the time I had taken half a bottle I began to improve, and when I had finished the two bottles of the 'Discovery' and two of the 'Pellets' I felt like a new person. That weak smothered feeling was all gone. I thought I ought ered feeling was all gone. I thought I ought to take more of the medicine but I felt so well I did not take any more. I would not take fifty dollars for the benefit I received

from taking your medicine," In Russia you must marry before eighty or not at all, and you may marry only ave times. BATHURS T.
