THINGS OF VALUE.
He—You're the apple of my eye.
She—Oh! A greening?
He—No; a seek-no-further.
The great demand for a pleasant, safe and reliable antiseptic for all affections of the throat and lungs is fully met with in Bickel's Anti-Consumptive Syrup. It is a purely Vegetable Compound, and acts promptly and magically in subduing all coughs, colds, bronchitis, inflammation of the lungs etc. It is so palatable that a child will no refuse it, and is put at a price that will not exclude the poor from its benefits.
'Bryan's house in Lincoln, Neb., is next door to number 1621.'
'Yes, and next door to 1611 is where he will stay, too.'
The Horse—noblest of brute creation—when suffering from a cut, abrasion or sore, derives as much benefit as its master in a like predicament. from the healing, soothing action of Dr. THOMAS' EUCROIC Ointment. Swelling of the neck, stiffness of the joints, throat and lungs, are relieved by it.
'What was the mean temperature yesterday?' asked the Observant Boarder at the breakfast table.
'I don't know,' replied the Cross-Eyed Boarder, 'but it was not so mean as it has been.'

NOT A NAUSEATING PILL.—The exponent of a pill is the substance which enfold the ingredients and makes up the pill mass. That of Parmelee's Vegetable Pills is so compounded as to preserve their moisture, and they can be carried into any latitude without impairing their strength. Many pills in order to keep them from adhering, are rolled in powders, which prove nauseating to the taste. Parmelee's Vegetable Pills are so prepared that they are agreeable to the most delicate.

Tarantula Jim—I hear tell that Polecat Pete was shot nine times through the body. You s'pose he'll git well?
Alkali Ike—I reckon he'll live, but I figger that he'll always be mighty porous.

How to CLEANSE THE SYSTEM.—Parmelee's Vegetable Pills are the result of scientific study of the effects of extracts of certain roots and herbs upon the digestive organs. Their use has demonstrated in many instances that they regulate the action of the Liver and Kidney, purify the blood, and carry off all the morbid accumulations from the system. They are easy to take, and their action is mild and beneficial.

We've had a terrible time in our flat this summer. 'Sickness?'
'No; we got our folding-bed open and can't get it shut.'

There can be a difference of opinion on most subjects, but there is one opinion as to the reliability of Mother Graves' Worm Exterminator. It is safe, sure and effectual.

Mrs. Dubbs—I've bought a lot of perpetuated palms; they save time.
Mrs. Dibbs—Yes; you don't have to water them.
Mrs. Dubbs—Of course, not; and people don't bother me wanting to know how I keep them looking so thrifty.

Are you a sufferer with corns? If you are get a bottle of Holloway's Corn Cure. It has never failed.

'How do you like my daughter's playing?' asked the proud mamma. 'She plays the piano by ear, you know.'

'Really!' exclaimed Mrs. Nodmore. 'I couldn't make up my mind whether it was 'by' or 'with.'

Polits and Moot-Polits.
Sociability without love or love without sociability are equally suspicious.
We pardon excessive self-love; it re-venge itself sufficiently.
Better do one thing than dream all things.

The beginning of memory is at the end of hope.
Understandings are more fatal to friendship than misunderstandings.
Only fools fight friction, the wise reduce it.

The biggest fool on earth is the man who works himself to death—the next biggest is the man who never undertakes anything from fear of hurting himself.
To inspire energy where it is naturally lacking requires deadly spurs; one might almost as well die of inaction as of the wounds they make.

The ideal is practical, even on the scaffold.

When Vitality Is Lacking.

The Complicated Machinery of the Body is Deranged and All Sorts of Pains, Aches and Weaknesses Are Experienced—Get New Vitality by Using Dr. Chase's Nerve Food.

The human body may be compared to one great and complicated machine, all parts of which work in unison, and the failure of one part to perform its duties denotes the weakness of the whole mechanism.

Vitality is the key to all health. Just as soon as vitality runs low there are pains and aches, weaknesses and irregularities in all parts.

The amount of vitality in the body is dependent on the richness of the blood and the supply of nerve and force. When these essentials of health are lacking they can best be supplied by Dr. Chase's Nerve Food.

Mrs. E. McLaughlin, 95 Parliament street Toronto, states:—'My daughter was pale, weak, languid and very nervous, her appetite was poor and changeable, she could scarcely drag herself about the house, and her nerves were completely unstrung, she could not sleep for more than half an hour at a time without starting up and crying out in excitement.'

'As she was growing weaker and weaker I became alarmed, and got a box of Dr. Chase's Nerve Food. She used this treatment for some weeks, and from the first we noticed a decided improvement. Her appetite became better, she gained in weight, the color returned to her face, and she gradually became strong and well. I cannot say too much in favor of this wonderful treatment since it has proven such a blessing to my daughter.'

Dr. Chase's Nerve Food is a blood builder and nerve vitalizer of most unusual merit, which overcomes disease by strengthening and invigorating the whole system. As a spring restorative it is unapproached by any remedy known to man; 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

HOTELS.
