When a new star floats into the field of vision of some watchful astronomer, the world honors the discoverer, gives the

new star a fitting name, and records the addition to the sum of human knowledge gained by this discovery. Yet of what small profit to humanity at large is this discovery? What will those cold star rays do for the sleepless sufferer who coughs and burns the long night through?

A far greater discovery for the sick is Dr. Pierce's Golden Medical Discovery, a remedy which has cured thousands of such sufferers. Obstinate and deepseated coughs, bronchitis, weak and bleeding lungs and other conditions, which, if neglected, lead to consumption, are permanently cured by "Golden Medical Discovery." It contains no alco-hol or other intoxicant, neither opium, cocaine nor other narcotic.
