When a man falls headlong from a roof, we think only of the hazardous character of his employment. It does not occur to us that thousands of men at sea or on

land are hourly climbing to dizzy heights without a fear and without a fall, and that the real danger is not in the employment but in the weakening of the nerves and giving way of the mus-cles. That danger is just

as great to the man on the sidewalk or in the office as to the man on the roof. When the stomach and the organs of digestion and nutrition are dis-

eased the blood becomes impoverished, and nerves and muscles grow weak for lack of nutrition. More fatal diseases probably begin with "weak stomach" than with any other cause. The first symptom of disordered stomach calls for prompt use of Dr. Pierce's Golden Medical Discovery. It is a vegetable medicine, absolutely non-alcoholic and nonnarcotic, and is unequaled for the strength it gives to blood, nerves and muscles.

"During the summer and fall of 1896," writes Chas. H. Sergeant,

Madison Co., Ohio. "I became all 'run down,' nerves and stomach were out of order. I wrote to Dr. Pierce for advice. He said I had gen-eral debility, and advised Dr. Pierce's Golden Medical Discovery, and, thanks to you for your advice, I used six bottles; and since I stop-ped taking it about one year ago, I have not taken any medi-cine of any kind, and have been able to work every day. My appetite is good, I can eat

three square meals a day, and I do not feel that miserable burning in the stomach after eating. I think I am now well."

Drink Only Good Tea.

There's a reason for it Cheap teas are not only flavorless, and require more tea to the cup to produce any taste, but moreover, are often artificially colored and flavored, and are sometimes most dangerous. A branded tea like Tetley's Elephant Brand is safest, as its packers' business reputation s staked on its purity.
