A Torpid Liver

Leaves Too Much Bile in the Blood to Poison the System and Cause Pains in the Back and Under the Left Shoulder Blade. Make the Liver Active by Using

Dr. Chase's Kidney-Liver Pills.

Sallow complexion, pain under the left shoulder blade and biliousness [are] unmistakable signs of a torpid, sluggish liver. Too much bile is left in the blood and the whole system is poisoned.

Many people blame the kidneys for their sufferings when the liver is the real cause. Backache is as often the result of inactive liver as of disordered kidneys, and when the pain runs up under the left shoulder blade you can be sure the liver is responsible for the suffering.

As an invigorator and strengthener of the liver and kidneys, Dr. Chase's Kidney Liver Pills are without a rival today. They have a combined and direct action on both liver and kidneys, and cure back ache, lumbago and the most complicated derangements of the liver and kidneys.

Dr. Chase's Kidney Liver Pills make the kidneys and liver active and vigorous, insure perfect filtering of the blood, and positively and permanently cure liver complaint, biliousness, jaundice, backache, lumbago, kidney diseases and all irregularities of the kidneys and liver. One pill a dose, 25 cents a box. At all dealers, or Edmondson, Bates & Co., Toronto.

Coughs, colds, croup, bronchitis, asthma and whooping cough are promptly relieved and cured by Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle, family size, three times as much, 60 cents.

THINGS OF VALUE.

Procrastination is the thief of time, but time does not despair, in turn he steals to woman's grief, Her beauty, and he thus gets square.

There never was, and never will be, a universal panacea, in one remedy for all ills to which flesh is heir. The very nature of many curatives being such that were the germs of other and differently seated diseases rooted in the system of the patient—what would relieve one ill, in turn would aggravate the other. We have, however, in Quinine Wine, when obtainable in a sound undiluted state, a remedy for many and grievous ills. By its gradual and judicious use, the frailties of the system are led into comparative strength, by the influence which Quinine exerts on Nature's own restoratives. It relieves the drooping spirits of those with whom a chronic state of morbid despondency and lack of interest in life is a disease, and, by tranquillizing the nerves, disposes to sound and refreshing sleep—imparts vigor to the action of the blood, which, being stimulated, courses throughout the veins, strengthening the healthy animal functions of the system, thereby making a necessary result, strengthening the frame, and giving life to the digestive organs, which naturally demand increased substance—result, improved appetite. Northron & Lyman of Toronto, have given to the public their superior Quinine Wine at the usual rate, and, gauged by the opinion of scientists, this wine approaches nearest perfection of any in the market. All druggists sell it.

"Where are the principal hard coal deposits of the United States?" asked the instructor of the physical geography class.

"In the national banks," exclaimed one of the pupils, a wild-eyed, shaggy-haired young man.

ILLIUSNESS BURDENS LIFE.—The bilious man is never a companionable man because his ailment renders him morose and gloomy. The complaint is not so dangerous as it is disagreeable. Yet no one need suffer from it who can procure Farnes' Intestinal Pills. By regulating the liver and obviating the effects of bile in the stomach they restore men to cheerfulness and full vigor of action.

Snarley—Those sleight-of-hand duflers are queer. Yow—Yes; they can take gold, diamonds, and rubies from the audience, but cannot raise the \$1.50 for the washerwoman of Saturday night.

Useful At All Times.—In winter or in summer Farnes' Vegetable Pills will come with and over come any irregularities of the digestive organs which change of diet, change of residence, or variation of temperature may bring about. They should be kept at hand, and once their beneficial action becomes known no one will be without them. There is nothing nauseating in their structure, and the most delicate can use them confidently.

"After I had sprained my ankle," said Mrs. Bellingham, "the pain was so severe that I could not speak."

"Then you actually suffered untold agony," commented Mrs. Kingsford.

Cannot Be Beat.—Mr. D. Steinhach, Zurich, writes:—"I have used Dr. Thomas' ELYNORIC OIL in my family for a number of years, and I can safely say that it cannot be beat for the cure of croup, fresh cuts and sprains. My little boy has had attacks of croup several times and one dose of Dr. Thomas' ELYNORIC OIL was sufficient for a perfect cure. I take great pleasure in recommending it as a family medicine, and I would not be without a bottle in my house."

"If our new girl really likes us as much as she says she does I don't understand why she breaks so many plates."

"Really it is only a platonic affection."

It may be only a trifling cold, but neglect it and it will fasten its fangs in your lungs, and you will soon be carried to an untimely grave. In this country we have sudden changes and must expect to have colds and coughs. We cannot avoid them, but we can effect a cure by using Bickel's Anti-Consumptive Syrup, the medicine that has never been known to fail in curing coughs, colds, croup, bronchitis and all affection of the throat, lungs and chest.

Deputy.—"What's that big key for?"

Sheriff—"Oh, that's the key to the clock factory across the street. The proprietor let the business run down and I have to wind it up."

Momentary Distinction.

"Good morning, my little dear. I never can tell you and your sister apart. Which of the twins are you?"

And the little one made answer: "I'm the one what's out walkin'."

Two Hearts at One.

Brown: "I'm glad I met your wife at last. She seemed to take a fancy to me."

Jones: "Yes? I wish you'd met her sooner."
