A sum that will help add to the institution which is a benefit to the town now and as the library increases will be of a great service to the people. The hall was well filled by the enthusiastic audience. I would be useless for me to attempt to praise each number on the programme separately, but it suffices to say the performance was very good and reflected a great credit on the performers as well as on the school. HER NOBLE SACRIFICE.

A Brave Girl Saves Her Brother After Year of Work.

After ten years of noble sacrifice Kate Kennedy, a beautiful girl, twenty seven years of age, of Decatur County, Ind., has proved her brother's innocence of murder and secured his release from prison, where he had been sentenced for life. Last week Gov. Mount, of Indiana, gave her into her own hands a full pardon for her brother. In 1885 William W. Kennedy was sentenced to imprisonment for life for the murder of David Decker at Greensburg. The murder occurred at a political rally, at which John A. Logan, candidate for Vice-President on the ticket with James G. Blaine, was the principal speaker. A number of persons had their pockets picked by thieves who had come from Cincinnati. These were singled out and fled. Decker was one of the pursuers and was turned upon by one and shot.

Months afterward Kennedy was arrested, though he strongly protested his innocence. His sister was present at his trial and immediately undertook to secure his release. Time and again she visited every juror, sought testimony of her brother's innocence from men known to have been in the crowd, sought judge and prosecutor to sign petitions for clemency and finally prosecuted her appeals before the governor.

In succession five Indiana executives were appealed to. First, Gov. Gray, afterward Gov. Hovey, Gov. Chase, Gov. Matthews and finally Gov. Mount. After years of persuasion all of the jurors signed her petition for a pardon, but the people of Decatur objected, and the executives feared to grant the release.

Then this girl did a remarkable thing. She assumed male attire, and as a last resort associated for months with rough men in hope of overhearing a word to prove her brother's innocence.

Eventually Gov. Mount paroled the prisoner. Still that did not satisfy her. 'The odium of a sentence for life is still hanging over him,' she said. And the brave girl persisted in her appeals until a full pardon was granted.

Meantime, after his parole, her brother enlisted in the regular army and is now upholding the flag in the Philippines.

"Question ob de Lungs."

A new disease is a matter of special interest to physicians, and to many professional people besides.

'Sam'l W. Johnson, he's done diseased las' right, and he's death.' 'In his evening's paper,' solemnly remarked Mr. Johnson to his ebony spouse.

'What did he disease ob?' inquired Mrs. Johnson, as she slapped her hand on the stove.

'Question ob de lungs was de last ob de trouble,' responded her husband.

'Question ob de lungs? Went's de?' demanded Mrs. Johnson.

'Question ob de lungs,' said the old darkey, in a tone fraught with a mixture of caution and pride, 'is a terrible hard trouble to scilbe. But some'ne de lungs lib' too it, an' some'ne dey don't; an' dat is jess nactu'ly de reason it is called question ob de lungs.'

It is a singular thing that in the popular view of disease the interdependence of the several organs of the body is lost sight of. The heart, for example, is diseased and it is treated as if it were entirely separated from, and independent of, every other organ.

The fallacy of this opinion is shown by the cures of heart "trouble," liver "trouble," kidney "trouble" and other so-called "troubles," effected by the use of Dr. Pierce's Golden Medical Discovery. Primarily the "Discovery" is a medicine for the cure of diseases of the stomach and blood. But it cures diseases of organs seemingly remote from the stomach, because these diseases have their origin in a diseased condition of the stomach and its associated organs of digestion and nutrition.

'I doctored with three different doctors for weak heart, but they did me no good,' writes Mrs. Julia A. Wilcox, of Cuyahoga, Wood Co., Ohio, Box 52. 'I was so tired and discouraged if I had had my choice to live or die I would have preferred to die. My husband heard of Golden Medical Discovery and he bought a bottle. I took that and the first half seemed to help me. I took six bottles before I stopped. I am perfectly well, and am cooking for six boarders. It has been a God-send to me.'

FAT REDUCTION. Mrs. M. Dumar studied the reduction of human fat for over 20 years, with the greatest specialists in Europe and America. Over 10,000 grateful patients attest her success. Her treatment is not "Banding," nor starvation diet. She protests against the "Free Trial Treatment" fraud, so often advertised. Her's is no "Monthly Payment" scheme. Mrs. Dumar's treatment is endorsed by the Colleges of Physicians and by "The United States Health Report." Her total charge is \$1, which pays for prescription, for medicine sold in all first class drug stores, full instructions as to the treatment, and everything necessary to reduce one pound or more a day. No extra charges. No wrinkles and no injury to health.

FROM NEWSPAPER EDITORIALS. The patients of Mrs. Dumar are legion, and all of them are her friends.—Weekly Tribune and Star. If you find this treatment not based on common sense, and find it doesn't work, she will send you \$1 back. If you question the value of this treatment, ask any proprietor of a first class newspaper. They all know Mrs. Dumar and what she has done. She has not published a testimonial in years. She does not need it. Her work is too well known. If you are interested in reducing flesh and believe that a sure, guaranteed reduction (as promised above) is worth \$1 to you, mail that sum in bill, stamps or money order to: MRS. M. DUMAR, 15 West 23rd St. New York.
