three scenes, which are said to be very beautiful, represent a fine old English park, with the castle of the Earl of Huntingdon in the background; the of the Crusaders in the desert, with the City of Acre in the distance; and the banquet hall of Huntingdon Castle. The musical numbers that are likely to win an enduring popularity are: The Dew is on the Heather, sung by Miss Belle Harper, in the character of Lady Vivian; The Cellarer's Toast, a bass song for Will Scarlet (Mr. Allen C. Hinckley); The Monk and the Magpie, which is similar in character to the Old Cross bow song of Robin Hood; a glee for six singers entitled The Cobbler and the Bluebottle Flies; I Am an Outlaw, Tell Me Again, Sweetheart, Love May Come and Love May Go, Away in the Forest, and Under the Mistletoe Bough.

News for suburbanites.

The Canadian Pacific Railway Company desires to thank those who by their liberal patronage have contributed to the marked success of last summer's suburban train service. The increase in the service put in effect in June last was largely a matter of experiment, and it is satisfactory to know that it was fully appreciated.

It is intended to pay particular attention to the suburban business out of St. John, and each year to arrange the train service to meet the demands of the traffic.

We would like to hear from you early as to the probable time you expect to move to your summer residence, and shall be pleased to consider any suggestions which you may wish to make regarding the summer train service in general, having in view the accommodation for the greater number, as it is our aim to meet the wishes of our patrons, so far as we possibly can, and at the same time retain the through traffic.

For the summer of 1902 arrangements will be made to place the majority of summer trains in service in May. Commencing with the first Monday in May the Fredericton local express will leave St. John at 5.30 p. m., instead of 6.45 p. m. as at present. It is now proposed that if a certain number advise us of their intention to move to their summer homes early in May, to start the local express from Lingley, or beyond, to St. John, reaching here about 7.20 a. m., on and after the second Monday in May, and possibly the 9.10 a. m. and the Wednesday and Saturday 1.00 p. m. local express from St. John to Wolford and return commencing the third week in May.

Sagacious Cats.

South of Fulton street, in New York city, the cat is not a pet but a business investment, an insurance policy against the river rats. Yet, wild as some of these animals are, there is one man, says the Tribunal, whom they regard with approval. That is the cat's meat man.

'I don't know all of them,' he says. 'No man could; and, besides, there are changes all the time. But if I don't know them they all know me, every last cat of them. And they're wise; cats are as wise as any beast that lives. Every cat on the block runs to meet me, but they are always on their good behavior.'

Now, here's a place where I leave meat for six cats. They all follow me in when I give it to the porter. They are the cats that belong here, and all the rest of the cats are waiting peaceably for me to come out. Now, see those four cats run ahead and into the next place, they're the cats that belong there, and line up to meet me.

'But that is a small part of the wisdom of these cats. Five mornings in the week I get around my beat between seven and eight o'clock, but on Saturdays I am always late, and never reach this block before nine. Well, on Saturday mornings the cats know that I'm late, and they don't put their heads outside the doors until it lacks only a little of nine.

You see there are calendars hanging up in every office to tell the day of the week, and clocks, too, and there's nothing to hinder the cats from consulting them. If they don't find out that way, how do they know when it's nine o'clock Saturday morning?

Röntgen Rays in Smuggling.

The post office at Buenos Aires, in the Argentine Republic, has furnished a striking illustration of the value of X-rays in detective work. Jewelers have found that smuggling in registered letters from Europe was very safe, as the government officials could not legally open such letters on suspicion, and it was finally resolved to investigate the evil without violating the law. The X-rays promptly revealed watches, chains, rings and other valuables in astonishing quality. This evidence was sufficient for a court order to open the packages, and more than \$20,000 of property has been confiscated in a single week.

Corns! Corns! Corns!
Discovered at last; a remedy that is sure, safe and painless. Putnam's Corn and Wart Extractor never fails, never causes pain, nor even the slightest discomfort. Buy Putnam's Corn Extractor and beware of the many cheap, dangerous and fish-eating substitutes in the market.

When all other corn preparations fail, try Holloway's Corn Cure. No pain what ever and no inconvenience in using it.

'Ah, old man! I hear you've had an addition to your family.'

'Yes, two.'

'Not twins?'

'Oh, no; the baby and my wife's mother!'

There is nothing equal to Mother Graves' Worm Exterminator for destroying worms. No article of its kind has given such satisfaction.

'Young Mr. Margin seems very familiar with the stock market.'

'I don't think so.'

He discussed it with great confidence.

Yes. But any one really familiar with the market knows better than to display confidence.

Known to Thousands.—Parmelec's Vegetable Pills regulate the action of the secretions, purify the blood and keep the stomach and bowels free from deleterious matter. Taken according to direction they will overcome dyspepsia, eradicate biliousness, and leave the digestive organs healthy and strong to perform their functions. Their merits are well known to thousands who know by experience how beneficial they are in giving tone to the system.

'When she married that old man for his money. She thought his cough would carry him off in a few months.'

'And it hasn't?'

'No. She can't even make him cough up what money she wants.'

A Sound Stomach Means a Clear Head.—The high pressure of a nervous life which business men of the present day are constrained to live makes draughts upon their vitality highly detrimental to their health. It is only by the most careful treatment that they are able to keep themselves alert and active in their various callings. Many of them know the value of Parmelec's Vegetable Pills in regulating the stomach and consequently keeping the head trouble-free.

It's the old, old story, said Kwator, 'truthlies at the bottom' of a well, you know.

Yes, unless it happens to be an oil well

If attacked with cholera or summer complaint of any kind read at once for a bottle of Dr. J. D. Kellogg's Dysentery Cordial and use it according to directions. It acts with wonderful rapidity in subduing that dread disease that weakens the strongest man that despoils the young and delicate. Those who have tried this cholera medicine say it acts promptly, and never fails to effect a thorough cure.

When a girl wishes she was young enough to flirt with a man who thinks she is too old for that sort of thing, she calls him a little snip.

No Alcohol in it.—Alcohol or any volatile matter which would impair strength by evaporation, does not, in any shape enter into the manufacture of Dr. Thomas' Electric Oil. Nor do medicinal changes affect it. It is as safe as water in the Arctic Circle as in the torrid zone, perhaps more useful in the latter latitudes, where a man is more subject to cold from exposure to the elements.

'You remember Bingley, who bought a house on each side of his own dwelling, so he could choose his own neighbors?'

'Yes. What of him?'

'Well, he fitted up those houses elegantly and rented them to first class tenants, and they won't associate with him, all because he's merely a landlord.'

IF YOU CATCH COLD

Many things may happen when you catch cold, but the thing that usually happens first is a cough. An inflammation starts up in the bronchial tubes or in the throat, and the discharge of mucus from the head constantly poisons the system. The very contraction of the throat muscles in the act of coughing helps to irritate so that the more you cough the more you have to cough. It is of course beyond question that in many cases the irritation started in this way results in lung troubles that are called by serious names. It is in this irritated bronchial tube that the germ of consumption finds lodgment and breeds. Great numbers of people disregard cough at first and pay the penalty of neglect. Cough never did any one any good. It should be dispensed with promptly. Adamson's Botanic Cough Balsam is a well known remedy, and it is the surest and quickest cough cure known to day. It does not deceive by druging the throat. It soothes the irritated parts and heals them, then the cough stops of its own accord. The action of this medicine is so simple that it seems like nature's own provisions for curing a cough. Every druggist has it. 25 cents. Be sure to get the genuine, which has "F. W. Kiebsman & Co." blown in the bottle.
