#### THE SUNDAY INQUIRY.

The inquiry into the charges preferred by the Lord's D\_y Alliance brought noth ing of importance to light that was not known before and which has not been commented on by the press again and again. No one thought for an instant that liq uor was not sold in St. John on Sunday but the charge of open violation has not and cannot be sustained. In fact the difficulty of getting proof even it secret sale was so great that the services of a scout were necessary and he at the instance of the president of the Alliance broke the Sabbath and drark liquor in order to gat the evidence he submitted. The ability to consider this a proper act lies with few persone. Dr. Fotheringham's z al we think in this instance perverted his good judg ment.

the future. IMPATIENT PATIENTS. People so frequently bleme a doctor for

failng to perform impossibilities that at the recent meeting of the Brit th M dical Association a distruished physician rndertook to state the case fairly, and show that some of the burden of failure ought to rest upon the patients.

As humen beings have become sensitive to pain, he stid, they have got into the habit of requiring treatment that produces immediate results. Thence a ise two evils dasgerous experiment with drugs and needless recourse to surgery.

The average invalid, seid this medical man, wants to know at once what is the matter with him. The doctor cannot always tell, and wor'd !'te to swait develop ments. But the patient insists on being dosed, and as often as not demands that ra 'operation' be performed. If he were content to go to bed and keep s'ill, his a ment might care itself; yet if the doctor suggests this, the patient concludes that ' nothing is being done' for him, and he

bastens to call another doctor. Two things the public needs to realiz : that the best physicians do not travel with

knives in their hands,-since they know that surgery has its pains and perils, as well as its successes, - and that they are increasingly averse to dealing out drugs. The great men of the profession win half

their victories with pure air, cleanliness proper diet, and insistence on ex roise for well people and rest for sick ones. Less famous physicians would be glad to follow their example if men and women would possess their souls in patience and forego the desire to tuin their stomachs into apothecary shops. Give the doctor- and nature-s chance.

The five mile professic al open was won by Jo' Fisher, Chicago, time 11 03

The London Daily Express publishes a report that Lord Ki chener, has asked for 25,000 more seasoned mounted men and for power to hang rebels, traitors and murderers without reference to the home government. 'Im nediately on his return from the continent,' says the Daily Ne ws, 'the kirg summoned a meeting of the conncil to consider Lord Kitchener's position. It is understood that his majes, y suned a very strong attitude and closely questioned ministers upon their proposals

Word was received in St John, N. B., Monday night that the barkeatine Babana which went aground Saturday night in the Petitcodiac liver was lying on her beamends on the river banks Her mizzenmast is broken and her yards and topmists gone. Her hill has been very badly damaged by beating on the rocks. It is said that there was no insurance on the barkentine which was valued at \$10,0.0 The annual sophomore freshman rush at Harvard was held Monday. O ing to the fact that Coach Reid of the football team had forbidden any candidates for ....... and 'varsity football to enter the rush, the sophomers had the advantage in numbers and won the contest easily. The rush lasted about an hour and a helt. No one was hurt seriously and all ended amicably with the classes cheering each other from the steps of University Hall. The schooner Myra B. fl w the yellow ia k at quarantine Monday night at St. John, N B. Monday atternoon one of her crew, Joseph Barton of Maitland, N. S. was declared a smallpox suspect at the general public hospital where he had gone for treatment as a typhoid fever patient. He had been ill since Friday on the schooner. The board of health immediately on learning of the matter, sent the schooner into quarantine. The Myra B. went there from Boston and is ready for sea bound tor Boston. The senate sub committee of the committee on military aff irs Monday at Washing on began the investigation of charges against Lieut. Col. H. O S. Holstand of the army, in connection with the alleged Manila hemp combination. The charges were preferred by Major Haskes tormerly a volunteer officer. In brief, the charges are that other officers in the army and some officie's in the civil departmen Col. Holstand attempted to form a combination to control the output of hemp from the Philippines, using their official position and influence to further their ends.

Commissioner Smith's expression of what he thought was right and wrong as far as the sale of soda water on Sunday is concerned may not have been necessary but it was frank and above board. Few people will consider it a crim; to sell sods on Sunday.

It is no harm to sell milk and yet the few loaves of bread that have been supplied on Sunday have created quite a disturbance in the minds of alliance members.

The elliance had plenty of witnesses but their evidence failed to support in any marked degree the charges that were made in their memorial. All the evidence of the officers and officials went to show that St. John is a well ordered and quiet city on the Sabbath. The efforts of the Lord's day Alliance to convey the impression that this is not so must reflect upon the community and yet in spite of their assertions the people know that the Subbath is well observed, not, it may be in the matter of church attendance but certainly in respect for the day.

If the inquiry results in the government king the Sabbath observance law into consideration and making it a more con sistent statute then good will have resulted-

### RECENT APPOINTMENTS.

Two appointments made by the local government to fill the offices of sheriff and clerk of the equity court seem to have been satisfactory to the people if the lack of adverse comment is any indication of approval.

The applicants for the position of high sheriff were only two in number Mr. R. R. RITCHIE who secured the appointment and Mr. W. C. RUDMAN ALLAN Both gentlemen were officials of the province and both strong supporters of the administration. Mr. RITCHIE possesed the advantage of being a lawyer and this may have turned the scale in his favor. At any rate Mr. Allan does not seem to take the appointment of Mr Ritchie to heart and has no doubt heartily congratulated him ere this. The remarkable feature of the vacancy was the scarcity of applicants. That one of the most important and honorable offices in the gift of the government should not be sought for more eagerly is surprising. The government can be congratulated upon its promptness in filling its vacancies. It has been shown that delays in making appointments are dangerous especially in St John. Mr R gans appointment as clerk in equity will no doubt prove very satisfactory

The resemblance of the General, in sppearance to his famous father is very strik ing. and especially when he is in miltary uniform.

General Grant has just passed his fiftyfirst year and is himself a graduate of West Point. His career has been cariously varied. He was for a time a Colonel of cavalry; afterward he was U lited States Minister to

Austria; still later he became one of the Police Commissioners of New York Civ; during the war with Spain he was once more a Colonel; then he was made a Brigadier General of Volunteers, and recently was advanced to the same rank in the regular army.

In connection with his appointment to bis present rank a pretty story is told that illustrates the kindly heart of Mrs. McKin-

ley As the President and she sat talking one evening, Mr. McKinl y told her that he had that day decided to give General Grant this last advance, and Mrs McKinley expressed her pleasure at learning of the intended promotion, and added :

'Don't you think, dear, that it would be nice to send a note to Mrs Grant, telling her that you had de ided to appoint he son? It would be so much nicer for her to get it direct from you thon to read the (ffi ial announcement in the papers. I can magine how a mother would like to know

of her son's promotion.'

The President agreed, and going to a writing table, he penned a little note stating that, at Mrs. McK.nley's request, he wrote to tell Mrs. Grant that he would take pleasure on the following day in appointing her son 'Fred' to the rank of a Brigadier-General in the regular army.

Mrs. Grant, the venerable and beloved widow of the great soldier and statesman, was greatly touched by Mrs. McKinley's thoughtfulness of her.

#### Bishop Potter at Manila.

From fer away Manila comes a sto. which is being told at the expense of Bishop Potter. The bishop, always ready to laugh at an agreeable story, wo the life of the party that sailed to Manila with bim some months ago.

Not until entering Manila harbor did the bishop's smile change to a look of apprehension. A government efficer had just boarded the steamship and was putting the passengers through a series of questions. There were twenty of these questions and each person who sought admittance to the port was required to answer them to the satisfaction of the cfinr.

When it came Bishop Potter's turn he told his name, sge, birthplace, profession and everything else with his usual promptness and candor. Then came the last question on the list. The officer, knowing the distinguished visitor, hesitated for a second, looked embarrassed, and then asked :-

'Are you a polygamist ?' Bishop Potter stopped smiling and a look of se. ous apprehension came over his face
