Remarkable Announcement.

We see by the Family Herald and Weekly Star, of Montreal, that this season they are offering their readers no less than three valuable pictures, and the subjects selected are certainly worthy of that great family paper. Real good pictures of our new King and Queen are very opportune, and it goes without saying that the Family Herald's pictures are the best extant. They are each 18 x 24 inches, taken since the accession to the throne, and bearing the King's and Queen's autograph. Being the first teken after the accession, they are sure to be handed down from generation to genera tion with the tradition: those of the King and Queen were the first pictures taken after they came to the throne. The third picture is a genuine surprise for Canadians, for it is there the publishers of the Family Herald have shown remarkable enterprise. All our readers have heard of the renowned Gainsborough picture, the Duchess of Devonshire. It has a remarkable history. Stolen in England 25 years ago, brought to America, hidden for 25 long years and delivered to its rightful owners on payment of a reward of \$25,000, and since sold to J. Pierpont Morgan for

\$75,000 each. Canadians will be deligh ed to know that the publishers of the Fam. iy eraid and Week'y S - have secried the light to . ish their readers with copir , ae to the o. gin', of that re nowned prining. The Ferily Herald's pic. re is 22 x 28, in ten lich colours, a perfect gem of a picture. Copies of the renowned Gainsborough sell in New York for twelve dollers each. When it is known bat each subscriber will receive that great family paper, the Ferily Herald and Weekly Star, and the three pictures, King Edward, Queen Alexanda, and the re nowned Duchess of Devonshire, all for one dollar, there is bound to be a big demand for the Family Herald this season, and there should be, for it certainly is the biggest dollar's worth obtainable.

"The square peg in the round hole" figuratively expresses the use of means unsuited to the desired end. A great many people who have been cured of dyspepsia and other diseases of the stomach and its allied organs of digestion and nutrition by the use of Dr. Pierce's Golden Medical Discovery say: "We tried many medicines with only temporary benefit. It was not until we began the use of Golden Medical Discovery' that we found a complete and lasting cure."

It is undoubtedly true that Dr. Pierce's Golden Medical Discovery holds the record for the perfect and permanent cure of indigestion and other diseases of the stomach and associated organs of digestion and nutrition. It is not a palliative. It cures the cause of disease and builds up the body with solid healthy flesh, not flabby fat.

"It is with pleasure that I tell you what Dr. Pierce's Golden Medical Discovery and 'Pellets' have done for me," writes Mrs. T. M. Palmer, of Peede, Kaufman Co., Texas. "Two years ago I was taken with stomach and bowel trouble. Everything I ate would put me in distress. I lived two weeks on milk and even that gave me pain. I felt as though I would starve to death.
Three doctors attended me—one said I had dyspepsia, two said catarrh of the stomach and bowels. They attended me (one at a time) for one year. I stopped taking their medicine and tried other patent medicine; got no better, and I grew so weak and nervous my heart would flutter. I could not do any kind of work. Now I can do my house work very well; am gaining in flesh and strength, and can eat anything I

If your washing medium does that, what matters its cheapness or its working power? Is it safe? That's the first thing. Some imitations of PEARLINE are not safe. They eat the clothes, slowly, but surely. Don't experiment. You are sure of PEARLINE; stick to it; it is standard, tested, proved, by years of use and millions of women. 638
