presently he sinks to his knees and discovers to his horror that he has to fight for his life in a quicksand.

Disease is much like the quicksand. The first symptoms of stomach trouble do not cause anxietv. But when the body grows weak through lack of nourishment and disease of the stomach breeds disease of heart, lungs, liver or kidneys, the sufferer realizes his danger and seeks for medicinal aid. Dr. Pierce's Gold-

these diseases have their origin in disease of the stomach and its allied organs. Thomas A. Swarts, of Sub-Station C., Columbus, Ohio, Box 103, writes: "I was taken with severe headache, then cramps in the stomach, and my food would not digest, then kidney and liver trouble, and my back got weak so I could scarcely get around. At last I had all the complaints at once, and the more I doctored the worse I got until six years passed. I had become so poorly I could only walk in the house by the aid of a chair, and I got so thin I had given up to die. Then a neighbor said, 'Take Dr. Pierce's Golden Medical Discovery and make a new man out of yourself.' The first bottle a new man out of yourself.' The first bottle helped me so I thought I would get another, and after I had taken eight bottles, in about six weeks. I was weighed and found I had gained twenty-seven (27) pounds. I have done more hard work in the past eleven months than I did in two years before, and I am as stout and healthy to-day, I think, as I ever was."

'Are you aware, sir, what you are doing? The stout, florid-faced man in the restaurant who was about to help himself to a generous portion of mince pie, looked up in astonishment at the nervous, thin, little individual opposite.

·What do you mean?' he asked.

'I have been watching you,' said the nervous man, 'eating your dinner, and impelled as I am by a love humanity, cannot see you leave this table without protest at the diet which you are killing yourself with. First, you had corned beet and cabbage, containing fully eighty per cent, of deleterious matter. Then you had

You don't look as if your diet was doing you much good, be said quietly.

That, sir, replied the thin man, is no argument at all. You were healthy to start with, and I wasn't. You'll go to peices in a short time, and I'll live to be an old man, because I know the percentage of truit sults the human system stand.

Yes, sir, I will.

Then, said the stout man, as he rose and paid his check, that only bears me out. It shows what harm can be done to humanity by a tool diet .-
