Something to Learn.

The people of St. John are not aware yet whether Mr. Carnegie will give one hundred thousand dollars or ten dollars towards a public library. If the millionaire is wise he will give right away or hereafter hold his peace. If he is waiting for public sentiment to express itself he has to back the wrong community.

A Pleasant Day.

Labor Day was a very pleasant holiday and the beautiful weather was enjoyed by thousands. The base ball games and Bay Shore drew large crowds. It was a day of much enjoyment.

To-ists Travel.

The tourist travel seems to still keep up. The Boston boats continue to bring a great many passengers and the hotel registers supply a large list of arrivals.

Mary! yelled the poet. What is it, dear? asked the patient wife. Why don't you keep that child quiet? What on earth is the matter with it? I do not know, dear; I am singing one of your lullabies to the poor little darling.

What is your age? Thirty years, sir. Thirty years? Well, well! Can you produce documents to show that you are no older? No, sir. You see the church where I was baptized was burned with all the church records, in 1848!

Rafferty, said Mr. Dolan, did you ever hear the old saying, Beauty is only skin deep? I did. And a foine, true saying it is. It is nothing in the kind. O! am thimbin' iv its foolishness ivery toime O! take the cover off a baked potato.

'THE great danger, said the grave citizen, is that we will drift into a paternal form of government. 'Yes, answered Mr. Meektoe, with a sigh; Henrietta seems worried about that every time I speak to the children.

INFANT MORTALITY.

Many Deaths Largely Due to Ignorance on the Part of Mothers.

The disorders of children seem to be rugged and hearty grown persons to be simple and not particularly dangerous. This point of view on the part of parents has been the cause of the loss of thousands of baby lives.

You will always find that the mothers who are successful in bringing up a mass of healthy, happy children with scarcely a day's sickness, are always those who are careful to note the slightest evidence of illness and to check the difficulty at once.

They do not belong to the class of mothers that stupify their children with sleeping draughts and similar medicines containing opiates.

They stick to the purely vegetable, healthful medicines which cure infantile disorders quickly, and of these Baby's Own Tablets are the best of all.

For colic, simple fevers, croup, constipation, diarrhoea, irritation when teething, indigestion and sleeplessness, these tablets are a quick, effective, never failing cure. Dissolved in water the smallest baby will take them without the slightest objection. Do not trifle with medicines containing which you know nothing, when here is a time tried remedy which is used constantly and with the best results in thousands of homes.

Mrs. H. H. Fox, Orange Ridge, Man., says: I have found Baby's Own Tablets a perfect medicine for children of all ages, and would not be without them in the house. They are truly a baby comfort and mother's friend. Baby's Own Tablets can be found at drug stores, or will be sent prepaid on receipt of price, 25 cents, by addressing The Dr. Williams Medicine Co., Dept. T., Brockville, Ont.
