BABY'S HEALTH.

The Most Precious Thing in the World to a Mother—How to Care for Little Ones.

No price would be too great to pay for the preservation of the perfect, rosy, sturdy health of a baby. No price would be too great; but, as a matter of fact, the price is very small—simply precaution and the exercise of good judgment.

It is not good judgment to give the tender, little infant remedies containing opiates, and the "so called" medicines, always contain opiates, they do not cure, they only stupefy the little one. Baby's Own Tablets are guaranteed to contain no opiates and no harmful drugs. It is the best medicine for little ones, because it is promptly effective and absolutely harmless. For nervousness, sleeplessness, constipation, colic, stomach troubles, the irritation accompanying the cutting of teeth and other infantile troubles. Baby's Own Tablets is beyond question the best medicine in the world. The Tablets are sweet and pleasant to take, and dissolved in water can be given with absolute safety to the youngest infant. Mothers who have used this medicine for their little ones, speak of it in the most enthusiastic terms—that is the best proof of its efficacy. Mrs. Alorzo Feltmate, Whitehead, N S., says:—*"In my opinion Baby's Own Tablets are unequalled for children. They take it readily, and regulate the bowels, cures them of peevishness, and is a great helper in teething. I would not think of being without the Tablets."* Sold by druggists or sent postpaid on receipt of price. 25 cents a box, by addressing the Dr. Williams Medicine Co., Brookville, Ont.

Lady (continues)—You can have something to eat if you'll work for it.

Tramp (with extreme dignity)—Madam would you ask me to stultify myself?

BOGHT YESTERDAY—CURED TODAY.—Mrs. O. C. Bart, of 26 Broadway, New York, says: *"I am surprised and delighted at the change for the better in my case in one day from the use of Dr. Agnew's Catarrhal Powder. It worked like magic—there's no excuse for a person suffering pain with this remedy within reach. 50 cents"*

PILE TERRORS SWEEP AWAY.—Dr. Agnew's Ointment stands at the head as a reliever, healer, and sure cure for Piles in all forms. One application will give comfort in a few minutes, and three to six days' application according to directions will cure chronic cases. It relieves all itching and burning skin diseases in a day. 35 cents.

Don't hand out money for things that are not "the best." Many washing-powders that seem to work well are unfit to use. PEARLINE costs only a trifle more than the poor and dangerous. The absolute safety of PEARLINE has been thoroughly tested and proved. Make sure nothing is used to save work at expense of your clothes. 659 Pearlina— Safe and Saving

Restless Drug-Taking.

A Physician, who knew what he intended to say and was not accustomed to speak rashly, once expressed his conviction that the average life of mankind would be prolonged, and the sum of human misery lessened, if every drug in existence could be destroyed and none ever again made.

He was a practicing physician, prescribing drugs daily in his treatment of disease and believing in their efficacy. What he meant was that more harm was done by the common practice of relying to the medicine chest or the apothecary's shop to very little ailment, and by the tensawing opium, chloral and other habits so introduced, than could be counteracted by the good effected in the legitimate use of remedies by properly educated physicians. And truly he had much to justify him in this gloomy view.

An American physician who has endeavored to investigate the use of narcotic in his state has published some startling figures as to the consumption of opium. If his results can be relied upon there is in this country an appalling number of slaves to the opium habit, most of whom go to their graves by taking of an occasional dose on their own responsibility to relieve pain or induce sleep.

But all the harm of self drugging is not in the formation of these habits. Many, who have never taken a dose of narcotic medicine knowingly, nevertheless seldom let a day pass without swallowing something which they think, or have been told, is good for kidney disease or gout or rheumatism or dyspepsia or biliousness, or some other ailment which they think, or have been told they are suffering from. They may or may not have guessed the cause of their bad feelings, but the chances are ten to one that the drugs they take so recklessly will do no good, if they do not do actual harm.

Drugs are poisons, which cannot but work evil upon the system if taken in a haphazard fashion by those ignorant of their action on the delicate machinery of the living body. Laxatives and liver remedies, nervines and tonics, quinine and iron, all are useful—life saving, at the proper time and in the proper dose; but taken in the quantities that they are, in season and out of season, for some reason or no reason, they are pernicious destroyers of health.

The Cook's Cannons.

The first thing that strikes a landsman on a man-of-war is the rigid discipline observed everywhere. On some of the ships belonging to the tropical countries, however, discipline is very lax.

The Defense, a Haytian man-of-war was lying in the harbor of Port au Prince. One day a mess cook, for some reason, cleaned about a peck of knives and forks on the gun-deck, and being suddenly called away, and not wishing to spend time to go to the galley, he seized the mess-pot full of knives and forks and stuck it in the muzzle of the ten-inch gun, putting the tarpaulin in after it.

About an hour afterward the admiral came aboard, and as the gun was loaded with blank cartridge, they used it to fire a salute.

It happened that the gun was aimed toward the town, and almost pointblank at the Grand Hotel. The guests assembled on the porch to witness the ceremonies, when they were saluted with a rain of knives and forks, which struck against the wooden walls like quills on a porcupine.

Fortunately no one was hurt, although there were many narrow escapes.

Australia's Budget.

The first budget of the Commonwealth of Australia has an interest aside from questions of expense and revenue is an indication of the policy which is to be followed with reference to the tariff. As presented to the parliament, the budget provides for a revenue of about \$10,000,000 from customs and excise, and about \$10,000,000 from postal and other sources. The expenses of the federal government are estimated at \$15,000,000 and the balance will be divided among the several States according to their needs. The tariff is framed with a view to protecting Australian interests, and this purpose is further promoted by provisions for bonuses for the establishment of new industries.

HEARD SICK PEOPLE.—Dr. Agnew's Cure for the Heart is a heart tonic that never fails to cure—is swift in its effects—goes closer to the border land and snatches from death's grip more sufferers than any other remedy for any family of diseases and ailments in the category of human sufferings. Gives relief in 30 minutes.

RHEUMATISM WILL SUCCEUMB to South American Rheumatic Cure because it goes right to the seat of the trouble and removes the cause. Many so-called cures but lessen pain temporarily only, to have it return again with doubled violence. Not so with this great remedy. It eradicates from the system the last vestige of the disease and its cures are permanent.

THE POISONED SPRING.—As in nature so in man, pollute the spring and disease and waste are bound to follow—the stomach and nerves out of kilter means poison in the spring. South American Nervine is a great purifier, cures Indigestion, Dyspepsia, and tones the nerves. The best evidence of its efficacy is the unsolicited testimony of thousands of cured ones.
