**Edison and His "Annihilator."**  
One of the pranks of the youthful Edison, when his genius was just beginning to show itself, is described in Collier's Weekly. Probably the danger to human as well as insect life involved in his electric "annihilator" prevented its general adoption.

Edison's early wanderings brought him at seventeen years of age to the Cincinnati office of the Western Union Telegraph Company, where his absorption in electricity and predictions of its future power confirmed the nickname of 'Luney,' which clung to him even until his fame was established.

'We have the craziest chap in our office!' said the telegraph manager to the editor of the Cincinnati Commercial Gazette. 'He does all sorts of queer things. I shouldn't be surprised if he turned out to be a genius some day. Let me tell you his last prank.'

'We have been annoyed for some time by cockroaches. They infested the sink. They don't now. Luney fixed them. He just ran two parallel wires round the sink, and charged one with negative and the other with positive electricity. Bread crumbs were then scattered, and when Mr. Cockroach appeared and put his little feet on the wires, ashes were all that were left to tell the tale.'

In this cockroach annihilator was the germ of the incandescent light.

**His Generosity.**

An amusing story is told by the Baptist Commonwealth of a bazaar held in a Western city. Among the features of the entertainment was a refreshment stall to which charitable donors contributed supplies, in order that all the money taken in might represent clear profit.

The lady in charge requested a gift for this purpose from Mr. Billings, a man who was both well known and wealthy, but not famous for liberal giving. To her surprise she received next day a note to the effect that he was sending her a sirloin of beef and two ox tongues.

The same morning the lady happened to go to her butcher, who also supplied the family of Mr. Billings with meat, and after giving him a large order for her stall, she asked if he himself would not like to give her something.

'I should, very much, ma'am, replied the butcher, but yesterday I gave to Mr. Billings at his request, for this very purpose, a sirloin of beef and three ox tongues.'

**A Six Fingered Family.**

Unique in the history of freaks is the six fingered family of Dresbach, Minn. The family now consists of Mrs. Gaskill and 10 children. The peculiarity belongs to the mother's side.

Mrs. Gaskill's maiden name was Olive Cooper. She doesn't know where she was born, but the family is probably of New York origin. She remembers only that she was a wanderer with the Cooper family at an early age, and that the Cooper family were basket makers and vendors; they led gypsy lives and crossed the continent from New York to San Francisco several times.

In the Cooper family there were 10 children, five of them had six fingers and five of them had not. The greatest peculiarity is that every alternate child, in point of age has the extra finger, and those who are not six fingered are blest with an extra toe and those who have six toes have webs between their toes. The extra fingers and toes have well developed nails. So much for the Cooper family. Exactly the same conditions are found in the Cavill family.

Mrs. Gaskill was married to Zicheus Gaskill 32 years ago and has resided in Dresbach since then. She is the mother of nine children four of them having the extra finger and four the extra toe.

Miss Smilax out? Didn't she get my note this morning?

'Shure, sor, I thought it was a bill from the face she made.'

The mother My daughter has been used to the tenderest care, to the utmost sympathy, and to unflinching guardianship. I trust this will be continued.

'The sutor I hope so, I am sure.'

'I'm afraid, said a certain small boy's mother, 'that you are overeating. Aren't you a little apprehensive?'

'No,' was the answer after due deliberation. 'I'm not afraid. You know ladies are naturally timid.'

Mrs Smithers I can't get Willie to carry in the coal or do anything any more. I wonder where he is?

Mr Smithers He's over to Jimson's help ing their boy carry in their coal.

Wife I bought a dream book today. Husband What did you do with the one you used to have?

Wife why I never had one before. Husband Oh, yes, you had but I believe you called it a cook book.

**THINGS OF VALUE  
WHAT MAKES YOU COUGH.**

Did you ever wonder just what it is that makes you cough? In a general way it is understood to be an involuntary effort of nature to eject something from the breath pipe. As a matter of fact, merely a slight throat inflammation caused by a cold will cause a cough to start, and the more you cough the more you want to cough. If you allow the inflammation in the throat your cough will stop. Don't dull the sensitiveness of the throat with medicine containing a narcotic but give it soothing and healing treatment. This is difficult because the inflamed parts in the passages of food and drink. The true cough remedy is something that will protect the throat from the ill effects of catarrhal discharges and also from the irritation of swallowing food. Such a remedy is Adamson's Botanic Cough Balm which for many years has been conquering the most obstinate coughs. It is a soothing compound prepared from herbs and gums. Its beneficent effect is quickly felt and the work of healing promptly begun. If you once take Adamson's Balm for cough, you will never be satisfied with some of the other remedies. A trial size of the Balm can be secured of any druggist for 10 cents. The regular size is 25c. In asking for the Balm be sure you get the genuine which has "W. Kinsman & Co." blown in the bottle.

**Just the Thing That's Wanted.**—A pill that acts upon the stomach and yet is so compounded that certain ingredients of it preserve their power to act upon the intestinal canal, so as to clear them of excreta the retention of which cannot but be harmful, was long looked for by the medical professions. It was found in Parmelee's Vegetable Pills, which are the result of much expert study, and are scientifically prepared as a laxative and an alterative in one.

'Her husband is very handsome, don't you think so?'  
'Yes, quite handsome.'  
'Isn't his plain wife jealous?'  
'Not a bit of it. If he gets a little flirtation she simply cuts off his weekly allowance of nine dollars, and that ends it.'
