THINGS OF VALUE.

Kindliman—What's the matter, my little man? You seem to be in great pain. Little Boy (groaning dismally)—No, I ain't but there seems ter be a great pain in me. Some one asks what is tact. It is that feeling which prompts a woman to dig up the photograph of a friend who is coming to visit from the bottom bureau drawer and put it on the parlor mantel. There never was, and never will be, a universal panacea, in one remedy for all ills to which flesh is heir—the very nature of many curatives being such that were the germs of other and differently seated diseases rooted in the system of the patient—what would relieve one ill, in turn would aggravate the other. We have, however, in Quinine Wine, when obtainable in a sound unadulterated state, a remedy for many and grievous ills. By its gradual and judicious use, the frailest systems are led into convalescence and strength, by the influence which Quinine exerts on Nature's own restoratives. It relieves the drooping spirits of those with whom a chronic state of morbid despondency and lack of interest in life is a disease, and, by tranquillizing the nerves, disposes to sound and refreshing sleep—imparts vigor to the action of the blood, which, being stimulated, courses throughout the veins, strengthening the healthy animal functions of the system, thereby making activity a necessary result, strengthening the frame, and giving life to the digestive organs, which naturally demand increased substance—result, improved appetite, Northrup & Lyman of Toronto, have given to the public their superior Quinine Wine at the usual rate, and, gauged by the opinion of scientists' this wine approaches nearest perfection of any in the market. All druggists sell it. 'Yes, sir; my great grandfather blazed his way to wealth.' 'With a pioneer's ax?' 'Ax? No. He burned barns and got the insurance.'

He Has Tried It.—Mr. John Anderson, Kinloss, writes: "I venture to say few, if any, have received greater benefit from the use of Dr. Thomas' Eucalyptic Oil than I have. I have used it regularly for over ten years, and have recommended it to all sufferers, I know of, and they also found it of great virtue in cases of severe bronchitis and incipient consumption."

Section Foreman—Do you think you can boss a gang of men? Mr. Bear—I think so. I've had my own way during 30 years of married life. There are so many cough medicines in the market, that it is sometimes difficult to tell which to buy; but if we had a cough, a cold or any affliction of the throat or lungs, we would try Bickie's Anti-Consumptive Syrup. Those who have used it think it is far ahead of all other preparations recommended for such complaints. The little folks like it as it is as pleasant as syrup.

Black—Mumsey is not a good conversationalist. White—No; he was the only boy in a family of nine children.

A Cure for Fever and Ague.—Farnelle's Vegetable Pills are compounded for use in any climate, and they will be found to preserve their powers in any latitude. In fever and ague they act upon the secretions and neutralize the poison which has found its way into the blood. They correct the impurities which find entrance into the system through drinking water or food and it used as a preventive fevers are avoided.

Jones—So your daughter is eloping eh? Are you going to bring her back? Jinks—Not on your life! I'm chasing them to make that young man get a move on. He might change his mind.

Just the Thing That's Wanted.—A pill that acts upon the stomach and yet is so compounded that certain ingredients of it preserve their power to act upon the intestinal canal, so as to clear them of the retention of which cannot but be hurtful, was long looked for by the medical profession. It was found in Farnelle's Vegetable Pills, which are the result of much expert study, and are scientifically prepared as a laxative and an alterative in one.

Patted Wife—This old fashioned chair is delightfully antique, but very uncomfortable. I don't see how your mother could like it. Husband (mildly)—I presume she was usually tired when she sat down.

WHAT MAKES YOU COUGH.

Did you ever wonder just what it is that makes you cough? In a general way it is understood to be an involuntary effort of nature to eject something from the breath-pipe. As a matter of fact, merely a slight throat inflammation caused by a cold will cause a cough to start, and the more you cough, the more you want to cough. If you allay the inflammation in the throat your cough will stop.

Don't kill the sensitiveness of the throat with medicine containing a narcotic, but give it soothing and healing treatment. This is difficult because the inflamed parts are in the way of the passage of food and drink. The true cough remedy is something that will protect the throat from the ill effect of catarrhal discharges and also from the irritation of swallowing food. Such a remedy is Adamson's Botanic Cough Balsam, which for many years has been conquering the most obstinate coughs. It is a soothing compound prepared from barks and gums. Its beneficial effect is quickly felt and the work of healing promptly begun. If you once take Adamson's Balsam for cough, you will never be satisfied without some of it at hand for any new cough. A trial size of the Balsam can be secured at any drugist for 10 cents. The regular size is 25c. In asking for the Balsam, be sure you get the genuine, which has "F. W. Kinsman & Co." blown in the bottle.

Had Met His Match.

A Scotch prison chaplain, recently appointed, entered one of the cells on his first round of inspection, and with most pomposity thus addressed the prisoner who occupied it: 'Well, my man, do you know who I am?'

'No, nor I dinna care!' was the nonchalant reply. 'Well, I'm your new chaplain.'

'Oh, ye are? Then I had heard o' ye before.'

'And what did you hear?' returned the chaplain, his curiosity getting the better of his dignity.

'Well, I heard that the last twa kirks ye were in ye preached them baith empty; but ye will na find it such an easy matter to do the same wi' this one.'

Strong words by a New York Specialist.—"After years of testing and comparison I have no hesitation in saying that Dr. Agnew's Cure for the Heart is the quickest, safest, and surest known to medical science. I use it in my own practice. It relieves the most acute forms of heart ailment inside of thirty minutes and never fails."—35

'Tommy,' said the teacher, 'how did you ever get the idea that natural gas is a vegetable?' 'It always comes up in the spring, don't it?' answered the bright child.
