MAY 2.—Mrs S C Goggin of Elgin is in town visiting her parents.

The Moncton Amateur Dramatic club was never seen to better advantage than in the production of "Fast Redemption" at the opera house last Friday evening, and the piece was an unqualified success. Every seat in the house was occupied and there were few, if any, among the large audience who were not most agreeably surprised at the able manner in which the piece was presented. All the principals portrayed their characters in professional style, and after the first bit of nervousness had worn off in the opening act, they took their parts like stage veterans. "Fast Redemption" is a pretty four act drama in which there is room for the best of acting.

**THINGS OF VALUE.**

The caller looked around her upon a condition of general uncleanliness. "I'm doing my own housework now," apologized the hostess. "Oh, are you?" said the caller, "I hadn't noticed that it was done."

"The trouble with your society novel, my dear young woman," the publisher said, handing the manuscript back to her, "is that the conversations are too stupid. They are evidently taken from real life."

There never was, and never will be, a universal panacea, in one remedy for all ills to which flesh is heir—the very nature of many curatives being such that were the germs of other and differently seated diseases rooted in the system of the patient—what would relieve one ill, in turn would aggravate the other. We have, however, in Quinine Wine, when obtainable in a sound undiluted state, a remedy for many and grievous ills. By its gradual and judicious use, the frailties of the system are led into coalescence and strength, by the influence which Quinine exerts on Nature's own restoratives. It relieves the drooping spirits of those with whom a chronic state of morbid despondency and lack of interest in life is a disease, and, by tranquilizing the nerves, disposes to sound and refreshing sleep—imparts vigor to the action of the blood, which, being stimulated, courses through the veins, strengthening the healthy animal functions of the system, thereby making activity a necessary result, strengthening the frame, and giving life to the digestive organs, which naturally demand increased substance—result, improved appetite, Northrup & Lyman of Toronto, have given to the public their superior Quinine Wine at the usual rate, and, gauged by the opinion of scientists' this wine approaches nearest perfection of any in the market. All druggists sell it.

"As you get older do you notice that your memory weakens a little now and then?" "A little? Huh—I've got so that I don't even remember that I wanted to remember something."

The great lung healer is found in the excellent medicine sold as Bickle's Anti-Consumptive Syrup. It soothes and diminishes the sensibility of the membrane of the throat and air passage, and is a sovereign remedy for all cough and colds, hoarseness, pain or soreness in the chest, bronchitis, etc. It has cured many when supposed to be far advanced in consumption.

"That grandstand of ours seems to leak somewhere."

"I guess it does. I know we took in 300 tickets at the door, and then gave out 700 rain checks."

Head La Grippe.—Mr. A. Nickerson, Farmer, Dutton, writes: "Last winter I had La Grippe and it left me with a severe pain in the small of my back and hip that used to catch me whenever I tried to climb a fence. This lasted for about two months when I bought a bottle of Dr. THOMAS' EUCALYPTIC OIL and used it both internally and externally, morning and evening, for three days, at the expiration of which time I was completely cured."

Teacher—"Thomas, give me your idea of the difference between a curve and an angle."

Tommy Tucker—"My aunt Ann is all curves, and my aunt Hopsy is all angles."

A Sound Stomach Means a Clear Head.—The high pressure of a nervous life which business men of the present day are constrained to live makes draughts upon vitality highly detrimental to their health. It is only by the most careful treatment that they are able to keep themselves alert and active in their various callings, many of them know the value of Farnelle's Vegetable Pills in restoring the stomach and consequently keeping the head clear.

Friend—I suppose that you always try to throw as much life in your pictures as you can?

A.ist.—Not always. I've painted 32 pictures of the Dead Sea in my time.

Known to Thousands.—Farnelle's Vegetable Pills regulate the action of the secretions, purify the blood and keep the stomach and bowels free from deleterious matter. Taken according to direction they will overcome dyspepsia, eradicate biliousness and leave the digestive organs healthy and strong to perform their functions. Their merit is well known to thousands who know by experience how beneficial they are in giving tone to the system.

"We've got traps in this neighborhood," said an uptown druggist to one of his regulars.

"Why?"

"Hired girl from some place came in here this morning and asked for 'glory of rhyme.'"

"And what did you give her?"

"A chance to go back and find out what she wanted."

"And what was it?"

"Chloride of lime."

**IF YOU CATCH COLD.**

Many things may happen when you catch cold, but the thing that usually happens first is a cough. An inflammation starts up in the bronchial tubes or in the throat, and the discharge of mucus from the head constantly poisons this. Then the very contraction of the throat muscles in the act of coughing helps to irritate so that the more you cough the more you have to cough. It is, of course, beyond question that in many cases the irritation started in this way results in lung troubles that are called by serious names. It is in this irritated bronchial tube that the germ of consumption finds lodgement and breeds.

Great numbers of people disregard cough at first, and pay the penalty of neglect. Cough never did any one any good. It should be dispensed with promptly. Adamson's Botanic Cough Balsam is a well known remedy, and it is the safest and quickest cough cure known to day. It does not deceive by dragging the throat. It soothes the irritated parts and heals them, then the cough stops of its own accord. The action of this medicine is so simple that it seems like nature's own provision for curing a cough. Every druggist has it. 25 cents. Be sure to get the genuine, which has "F. W. Kinsman & Co." blown in the bottle.

astonished a native

I had been diligently exercising myself in the art of harpoon-broving, and one day, having become somewhat expert, was thus amusing myself when a party of natives came along. One of them, doubtless supposing me to be a novice, and cried out in Eskimo, "Go ahead! Throw!"

Promptly accepting the challenge, I hurled my harpoon, which made so straight for the astonished man's breast that he did not know which way to jump, and barely got out of the way in time to save himself.

As the shaft passed him and went crashing through a flour-barrel behind where he had stood, his companion had a great laugh at his expense.
