Feb .- The students of the Maritime Business College were 'st home' last evening to their friends in the large assembly hall of the college. The rooms were tastefully decorated with flags and bunting, and presented a hardsome appearance. A programme of music both vocal and instrumental, coupled with games and etc., made an enj yable evening for all present. Refreshments were served at 10,30, after which prizes were presented for the most successful competitors in the games of the evening. Mr. L. V. Smith, Port Hood, C. B., secured the gentleman's prize, and Miss Jessie Abernethy the ladies.

Miss Olive of Halifax, is visiting Mrs C Heales, Wolfville.

Miss McPherson, daughter of Hon D McPherson and Miss McDonald, daughter of Col C J McDonald, left Yarmouth by steamer Boston last Thursday evening for Boston.

There was an interesting programme at the St. Paul's Young Peoples' Society on Friday evening, The rector presided. Mr Abbott gave a violin solo and Miss Nichells a recitation. A number of young ladies from the Halifax Ladies College assist ed in the programme.

Mrs Benj Hills, Yarmouth, is in Halifax to see her brother, Dr J R DeWolfe, who is ill.

Miss Violet Fidler left by S S Halifax to take a course of training at the Massachusetts Eye and Ear Infirmary.

snow the drive was very much enjoyed. After a splendia sapper which Host Creighton knows so well how to serve whist was indulged in by the older members of the party, while the younger ones solaced themselves with a little informal dance. An eujoyable gathering on Shrove Tuesday was

at the residence of Mr George Harris, Young street where a sumber of young people spent a very pleasant evening with whist, music and dancing.

FOR ADDITI NA COCIETY NEWS, SEE FIFTH AND Hotel at Bedford, and in spite of the absence of

The Masquerade Carnival held at the new Exhibition Rink last night was a pronounced succes a in every respect, a: d may be repeated at an early date. There were a large number of costumed skaters on the ice, in fact many said that the attendance was larger than it has been for many years on similar occasions. The ice which was in splendid condition was fairly covered by skaters in various costumes, but none were pasticularly striking or original. The May Queens and Summer Girls all looked well, as did many others. The Colored Gents predominated and a body of young man were known as the Africville Town Council with their ladies. These young men numbered about 25, and caused much amusement for all present, Several solos and choruses were sung and they took the gathering. Chief of Police Bill, Rev Mr Hen Roost, Aunt Sally, Aunt Liz, etc, etc, were introduced to the audience by large placards attached to their backs.

The music was supplied by the R C R and 63 bands in their usual excellent manner. The rink has been beautifully decorated for the occasion by Manager Mullane. All arrangements were perfect. There were between 800 and 900 spectators and skaters present.

TRUEO.

Feb. 27 .- Mr. Fred Rowley, Inspector for the Bank of Nova Scotia, has been in town for a few days a guest of his friends at "Elmhurst."

Mr. CE Bently and Mr HC C Yuill, left on Monday evening for Boston en route for the old country, per SS New England. Mr. and Mrs. D B Cummings, who will be passengers by the same boat, left in the afternoon.

Mrs. P J Chisholm, who has been enjoying a very pleasant visit with home friends here, left for her home in Boston via Yarmouth, this morning. Miss Jean Crowe entertained a few tables o whist very pleasantly last Wednesday evening. Mr. J Dickie, who was here for a short visit with

his sister Mrs. H W Crowe, left for his home in New York last Friday. Miss Maud Archibald spent a few days last week

with Halifax friends.

The children's Carnival of last Friday evening was not largely representative of the skater in costume. Shortly after nine o'clock large numbers of skaters took advantage of the perfect ice and charming music. Miss Kathleen Halisey as an Indian Huntress was awarded the prize. M iss Nora Richardson as Nell Gwynne, looked very sweet and quaint, and elicited much admiration. A a Paper Doll, little Miss Eileen Henderson PEG. looked a very pretty sprite.

Tuesday night. Over sixty couples were presents who danced to the ex ellent music of the Italian orchestra from Halliac. Supper was served a eleven, and the entire programme of dances was much enjoyed. Beside the home members of the club a large number were present from Wolfville . Canning, Canard and a few visitors from Ha lifax, The chaperones were Mrs Chas Smith and Mrs W B Moore.

PROGRESS SATURDAY MARCH 2 1901.

PROTECTION OF THE CHILD'S EYES

Great Care Should be Taken of Them From Infancy.

Nowhere is the comparison between an ounce of prevention and a pound of cure more applicable than in the care of the eves; for the neglect of seemingly trivial affections, perfectly curable in their beginnings, may lead in an incredibly short time to permanent impairment of vision or even to total blindness.

The care of the eyes should begin with the moment of birth. The new baby's eyes should be the first part to receive attention. They should be wiped carefully with a piece of absorbent cotton wet with a warm solution of boric acid, of a strength of about sixty grains in four ounces of distilled water. After the lids have been thus carefully weshed on the outside, they should be gently separated and some of the solution dropped into the eyes.

In washing the eyes one should be careful never to dip again in the solution a piece of cotton which has once been used ; a fresh piece must be taken each time the eyes are wiped.

The baby's eyes must be protected from the light; its crib must be placed where the eyes are not exposed to the full light from a window, and the carriages should have a shade raised only about a foot above the baby's head.

Children often suffer from inflammatio of the edges of the lids, which are red and scaly, and the lashes fall out and break off. This may betoken a general scro'ulous condition, or it may depend upon some defect in the sight which causes eyestrain, or it may be only a local trouble. If it is only a local trouble, a few applications of boric acid ointment at bedtime will generally effect a cure.

A Child's CPU

Pierces the mother's heart like a sword. Often the mother who would do everything for the little one she loves, is utterly impotent to help and finds no help in physicians. That was the case with Mrs. Duncan, whose little one was

and other diseases which are caused by an impure condition of the blood. It entirely eradicates the poisons which feed disease, and builds up the body with sound, healthy flesh.

"My little daughter became afflicted with scrofula, which affected her eyes," writes Mrs, Agnes L. Duncan, of Mansfield, Sebastian Co., Ark. "She could not bear the light for over a year. We tried to cure, her eyes, but nothing did any good. We had our home physician and he advised us to take her to an oculist, as her eyelids would have to be 'scraped.' They had become so thick he thought she would never recover her sight. As there was no one else to whom we could apply my heart sank within me. I went to your 'Common Sense Medical Adviser,' read your treatment on scrofula, get-ting the properties of medicines there advised. With five bottles of 'Golden Medical Discovery' I have entirely cured my child. "Hoping this will be of some use to you and

blessing to other sufferers, with heartfelt thanks, I remain."

Doctor Pierce's Pleasant Pellets are an excellent laxative for children. They are easy to take and thorough in action.

KENTVILLE.

Conjunctivitis, or inflammation of the membrane covering the globe of the eye, may be due to a cold, to the action of bright sunlight or reflection from water or from snow, or to eye-strain from some visual imperiection. Usually the boric acid solution will give relief here, even when the trouble cannot be permanently cured until proper glasses are worn.

Another paintul consequence of eyestrain is a succession of sties. When a child suffers frequently from sties, from sore lids, or from conjunctivitis, the sight should be tested.

Much harm is often done to the eyes, as well as to the general health, by too long application to books, either school or story books. Three hours of looking at print by daylight, and one hour in the evening, should not be exceeded by any child under fourteen, for that is as much as his eyes, even if their vision is perfectly normal, will stand without injury.

In His Hand,

In a court-room in a Western city, says an exchange, a tramp stood charged with stealing a watch. He stoutly denied the impeachment, and brought a countercharge against his accuser for assault committed with a frying pan.

The judge was inclined to take a common-sense view of the case, and regarding the prisoner, said :

Why did you allow the prosecutor, who is a smaller man than yourself, to assault you without resistance? Had you nothing in your hand with which to defend yourselt ?'

'Bedad, your honor,' answered the tramp. 'I had his watch, but what was that against a frying pan ?'

'You see, in the spring the chickens come over in my yard every day, and just dig up my treshmade beds,' said the suburbanite.

'Well, why don't you invest in some of those folding beds which you can close up during the day?' asked the innocent city man.
