Retrospect.

It is an evil day for the wife and mother when she scans her worn face in the mirror, and asks the question, "Does it pay? Does it pay to sacrifice health and happiness to wedded love?"

But there is another question which rightly takes precedence of Does it pay? It is this: "Is it necessary to sacrifice health and happiness to wedded love?"

Half a million women answer, No! They have been weak and have been made strong by Dr. Pierce's Favorite Prescription.

They were sick and "Favorite Prescription" made them well. It will do the same for almost every woman who gives it a fair and faithful trial.

It stops weakening drains, heals inflammation and ulceration and cures female weakness. It tranquilizes the nerves and encourages the appetite.

"I expected to become a mother, and a threatened miscarriage greatly weakened me," writes Mrs. E. A. Nations, of Wits Springs, Seary Co., Ark. "and my old disease returned. My husband got another doctor for me but I seemed to just drag along and get no better. At last I told the doctor that if his medicine did not help me I would go back to Dr. Pierce's medicine. I did so, and by the time I had taken them one month I could do my own housework, except washing, and tended my garden too. I was stouter than I had ever been while waiting baby's coming since my first baby came (this one was the sixth child). She is now eleven months old and is a healthy child. As for me, I feel as young now as I did at eighteen years of age; am thirty now. I can cheerfully recommend Dr. Pierce's medicine to all suffering womankind."
