LOOKING BACK

To the time when she was plucked from the very grasp of death, the natural impulse of the womanly heart is thankfulness for the means which saved her, and a desire to help other women in like case. Those are the motives which prompted Mrs. Eva Burnett to write the accompanying testimonial to the curative power of Dr. Pierce's Favorite Prescription. This is only one cure out of thousands. No one would dare say that the average woman was not as truthful as she is good. And it is the truthful testimony of the average woman that "Favorite Prescription" cures womanly diseases when all other means and medicines absolutely fail. It establishes regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It tranquilizes the nerves, restores the appetite and induces refreshing sleep.

"I have intended for some time to write to you," says Mrs. Eva Burnett, of Russellville, Logan Co., Ky., "and give a testimonial in regard to what your medicine has done for me. My baby came in July, 1889, and I had congestive chills, and lay at death's door for ten long weeks. I was in a dreadful condition and had six of the best doctors of the city. After everything had been done and I had been given up to die I was asked my husband to get me a bottle of Dr. Pierce's Favorite Prescription. He had no faith in it, but he got it, and when I had taken it two weeks I was able to walk to the dining room and lay at death's door for ten long weeks.
