"Tom Moore" Theodere Burt H. Sayres new comedy, was successfully produced at New York this week. Andrew Mack is the star of the company and it is hardly necessary to say that the piece will be popular. The progress, sentimental and wordly of Tom. The French drams of "Uncle Tom's Cabin," made long ago by Adolph D'Ennery and new in use again in Paris, is less scrappy than the play we are accustomed to. One of the D'Ennery devices to sustain the interest is to combine Marks and Fletcher in one character, called Senator Bird, who starts out as the slave-catching lawyer, but develops like the slave-freeing Quaker. This roll is being played by Jean Coquelin.

Sadie Yacco, the Japanese actress who excited interest in New York a year and a half ago and has since been a fad in London and Paris, will return here this season with her husband, Otojiro Kawakami, and Loie Fuller. The repertory will include "The Merchant of Venice," in which Sada Yacco will act Portia in English.

The season at Bergen Beach, like that of the Metropolitan root gardens, continues despite the opening of the city theatres, "The Pan-American Girl" and vaudeville form the stage entertainments

Ada Rehan's tour, booked for the coming sesson, has been canceled, it is said, and there is hardly any likelihood that she will appear at all during the winter. A rumor went about dast week that the people-engaged had been notified that the company would not go out.

She cabled him she secured one of the leading English comedy successes, the rights to which she ready to transfer to Mr. Byron's managers. Wagenhals and Kemper are said to have confidence, however, in the play already selected for his debut. As yet this new play laoks a title.

Edward Morgan as John Storms in The Christian is the attraction at Boston this

The farce of A Strange in a Strange Land,' which was produced two years ago at the Manhattan, will be acted this week at the Third Avenue with William Friend as the principal actor.

The reviewers were compelled to make fun of the crudities in 'The Mormon Wife' at the Fourteenth Street. Some of those faults were remediable and other are such as will not hurt the piece in the esteem of the uncritical and impressionable multitude. The theme, that of a Mormon and a Gentle wif in contention over their husband, should be made to yield effective stage fiction. The episode of the fight between the two women for possession of the min, even though it made the first audience laugh, might be developed into serious value. The difficulty about it is that Utah polygamy has been so long a subject of jest that people are not inclined to take a sober view of it.

The root gardens are still doing good business so says the New York Sun. Next

week many of the theatres will open for the season, which promises to be an unus wally interesting one.

IN MUSICAL CIRCLES

The New York Sue in a recent issue says that one of the new American singers, to be heard here during the coming season is Mile. Marie Titiano, who has been to the past two years in Italy. In Florence she studied under Leandro Campanari. She appeared first several years ago while a student with the Boston Symphony Orchestra at one of the Boston concerts, when Nerve Food. her success was so great that Wilhelm Gericke engaged her to go with the organization on the tour. She has a phenemenally high-soprano and sings G in alt with case. Her high notes are said to be tall and sonesous, anlike most voices o such unusual range. She sings the aria of Astrafiammente in the second act of "II Flauto Magico" in the key that Mozart wrote it for his sister in laws's high voice. Mile. Titiane is the only soprane before the public who sings the aris in this key. She is a native of Pennsylvania, comes of Weleh ancestry, and her real name is Titus. She made her operatic debut in Yarese, where she sang with Ernesto Tamagno, and was immediately successful. She will be heard first during November. Gregory Heat is an English tenor who is to be heard here in November. He began his musical career as a boy soloist in St. Pani's Vaux hall, and has been a papular ballad singer in London for several years. He studied this branch of his profession with Sims Reeves and has a repertoise of seventy works of this kind. He will ap pear here in recital.

The direction of La Scale in Miles has been undertaken by the Duke Visconti di Mondrene, who was a member of the stock company that has been centrolling the theatre, and has given during the past few years large sums of money out of his privste purse to make up the deficience in the receipts. This will make the theatre entirely under his centrel. The arrangement is highly satisfactory to the Milanese. who are admirers of the Duke Arrigo Boito is said to have finished a new libretto of 'Nero' and he has rewritten much of the score of 'Nerone' which will soon be published. This is the last contribution to the mythology of this opera. The last Italian musician to be inspired by early Christian romance has composed an or chestral suite called 'Quo Vadis' and comprising four movements-'Lydia' 'Orgy,' 'The Burning of Rome,' and 'The Death of Nero.' This ought to inspire Signor Bosto to basten a little on bis thirty year old opera. It has been that long since he started to work on it.

The German tenor, Bandcowsky, has been engaged by Maurice Grau tor his opera house in Franktort.

Alma Webster Powell who is in New York now, is not to appear professionally while in this country. She returns to Europe very shortly.

Valuable Cut.

It seems strange to me that Mr. Ketchum has forced his way into fashionable society so soon. said a conservative old lady to her son-in law.

In my day a men with his table manners would not have been considered a desireable addition to any dinner company. Why, he has no idea how to use his knife

No-o, said the young man slowly. that's perfectly true; but his ability to cut cupons is such that they overlook his awkwardness with steak, fish and game.

### 11. Richibucto Marbor Light Changed.

Two pole lights established by the government of Canada on the south beach at the entrance to Richibucto barbor, Strait of Northumberland coast of New Brunswick, were put in operation on the 1st

The lights are fixed white, shown from pressed ens lanterns hoisted on poles, and should be visitble three miles from all points of approach,

The treat line is elevated 34 feet above high water mark. The mast is 26 feet high, and stands 112 feet back from the water, at a point 2858 feet southeastwardly from the front light of the old Richibucto harbor range.

Approximate position, from Admiralty chart No.

Lat. N. 46 deg. 42m. 424. Long. W. 64 deg, 45m. 5s.

The back light is elevated 37 feet above high water mark. The mast is 37 feet high and stands 263 feet 5. 1/2 W. from the front one

The two lights in one, bearing 8. 1/2 W., lead to the black can buoy in 41/2 fathoms that marks the outhern limit of the anchorage outside the bar, They also lead between the buoys marking the channel over the bar which carries 12 feet of water. to the red can buoy which markes the sharp turn of the channel to the westward inside the bar.
