A WOMAN'S THROAT

Is her fortune if she chances to be a Patti or Alboni, and that fortune is guarded day and night with the greatest care. Nothing frightens a singer so much as a cough.

Every woman ought to be afraid of a cough. It is nature's danger signal. Who does not know of some sweet woman-voice silenced forever by disease which began with a slight cough.

The use of Dr. Pierce's Golden Medical Discovery will ensure a permanent cure of the most obstinate and lingering coughs. Even when the lungs are involved and there are hemorrhages and emaciation, "Golden Medical Discovery" is generally effective in restoring the diseased organs to sound health and strength.

"I am feeling quite well," writes Miss Dorcas A. Lewis, of No. 1129 1/2th Street, Washington, D. C., "and I owe it all to Dr. Pierce's Golden Medical Discovery. Tea and Coffee.

England and Russia are the two chief tea-drinking countries of Europe, and the partiality of the Russians for tea is shown by the fact that while the consumption of tea was tripled during that period. Germany and France are the chief coffee-drinking countries of Europe, and in the United States, in which, usually, tea has been a more popular beverage in the country and coffee in the suburban districts, the increasing popularity of the latter has been affecting adversely and importation of tea into the United States.

Tea drinking in the United States is certainly not on the increase and coffee drinking certainly is.
