

An Embarrassing Honor

The obsequiousness of those who hope to advance themselves by being exceedingly polite to their superiors in office sometimes assumes an amusing aspect.

A certain head of a government department was invited, says a daily paper, to dine with others at a table with a cabinet minister. During the dinner the former, who happened to be placed between a door and a window, and had said nothing at all, began to sneeze.

'Are you taking cold, Mr. Brown?' asked the cabinet minister.

'I believe I have that honor and pleasure,' answered Mr. Brown, bowing very respectfully.

Corticelli Skirt Protector should not be used as a binding—it is a physical impossibility for any kind of a binding to outwear a skirt.

Corticelli Protector Braid should be sewed on flat—not turned over—one or two rows of stitching—one at upper edge of braid and the second near the bottom of the skirt.

Put on thus it is a real "protector"—its perfect shade match makes a desirable bottom finish for any skirt.

The city is full of Colic and Grip, every one is coughing and sneezing.

To avoid taking Cold, keep the feet dry and wear warm clothing.

A lighter shoe at night, a high-neck flannel set aside—just for once to wear an evening gown—are fraught with danger.

A change from a thick business suit to evening dress makes many a sore chest.

Going out of a superheated house, hall, church or theatre, is a frequent cause.

Use care in your dress, avoid exposure, carry and take "SEVENTY-SEVEN" ("77") Dr. Humphrey's Famous Specific. It stops a Cold at the start and "breaks up" Colds that hang on.
