#### DIVORCE IN TURKEY.

It is as Basy as Marriage is in This Country -Any Cause Sufficient.

Divorce is very easy in Turkey and does not require a Judge and jurg to settle matters. All that is necessary is for the injured party to say 'I divorce you' three times and the deed is done. ,The husband has to make the wife a proper allowance, and all is over. Two cases have occurred recently which are rather amusing.

A certain Turkish gentleman 1s a keen amateur gardner, and bis garden contains at all seasons a brilliant show of flowers, to which he devotes most of his time, rather to the disgust of his wife who is never allowed to cut them. Last month his chrysanthemums were in the height of their glory when a tremendous downpour of rain came on. This threatened to destroy the magnificent blooms, many of which were equal in size to the best results attained in England. Sseing the danger, the gentleman called all his servants and set to work to carry the pots into the house and arrange them up both sides of the staircase. When they had finished the lady suddenly appeared and fell into violent rage, declaring that her husband thought more of his flowers than he did of her, and that he insulted her by bringing earth into the house. Nothing would appease her ; she said he was defiling her bcuse by bringing dirt in, and she would divorce him. She sent for her sister to come and be a witness of the divorce, and setting to work with her women bundled all the flowers out again. When The sister arrived, however, matters were settled ap, and the divorce did not take place.

On another occasion the same lady sent her small son down to breakfast in a pink shirt and a green tie. The father was shocked at this barbarous combination, and made a remark to the English governess, who sent the child back to change his tie. But down came the lady of the house in a furious rage, saying she knew how to dress the child ;that a pink shirt and a green tie were in the best of taste , and she would not remain to be insulted by his giving preference to the opinions of ar English girl. Again she threatened to divorce him, but again it fell through, as the husband could not find the £600 he would have had to pay her until her wrath had cooled.
