

## FREDERICTON, (N.B.)

18th NOVEMBER, 1817.

A detachment of the 98th regt. arrived here in the Steam Boat yesterday morning, from St. John.

By the Halifax papers received this morning we are put in possession of London dates to the 1st and Liverpool to the 3d October, inclusive.

### MARRIED

At St. Mary's on Saturday evening last, by the Reverend J. Somerville, Mr. ISAAC C. DE VEEB, son of the late Lt.-Col. De Veeb, of Maugerville, to JANE W. third daughter of the late Mr. James Moore.

### DIED

Very suddenly at Miramichi, the 26th ult. Doctor NICHOLAS POWER, in the prime of youth, formerly of St. John's Newfld.

LONDON, SEPTEMBER 20.

#### For Spanish America.

A morning paper states, "that there is at this moment lying in the river, a ship of nearly 500 tons burthen, regularly chartered to convey a body of disciplined troops actually listed, to fight under the banners of the independents. On board of the vessel there are at present about 300 men, commissioned, non-commissioned officers and privates, of whom the greater part have been in actual service, and are the subjects of Great-Britain. The commander is a Colonel C——, who is provided with every necessary for the immediate execution of military operations against the Spanish government. The Ship sails in the first instance to St. Thomas's, from whence she will proceed to such part of the Spanish American continent as may require the active service of the troops."

SEPTEMBER 21.

The rumored diminution of the Allied Army in France, of a second fifth, is now said to be deferred until next spring.

Letters of the 10th of August from Constantinople, state that the plague continued to rage in that city with increased violence.

The Brussels papers announce a new work by M. de Pradt. It is relative to the affairs of Belgium.

The Madrid Gazette states that the Queen of Spain suckles her own child, the Infanta Maria-Isabella-Louise. This is a lesson for mothers in high life.

The captain of an English man-of-war who arrived at Gibraltar on the 18th of August, states, that on the 10th of that month, the day of his departure from Algiers, the number of deaths by the plague, amounted to from 60 to 70 daily.

SEPTEMBER 28,

Earl Talbot is sworn in as one of his Majesty's Most Honorable Privy Council, and declared Lieut. General and Governor of Ireland.

Sir Home Popham, it is said will succeed to the command on the Jamaica Station, at the expiration of Admiral Douglas's term of service, in January next.

Two objects of importance are said to have occasioned Mr. Vansittart's visit to Ireland: the one to correct and improve the various public offices in that kingdom, where a want of system and attention is said to prevail; the other, which is really of great consequence to the state at large, the equalization of exchanges.

Various official documents presented to the House of Commons last session, relating to the revenue, commerce and manufactures of the country, have just been printed by order of the house. One of the most striking circumstances in these reports is, the great increase of the revenue within the last 20 years. In 1797, the revenue was £26,820,629 13s. 4d. In 1816, it was £73,022,675 16s. 11d. being nearly threefold.

OCT. 1.

Lord Exmouth arrived at Plymouth on Wednesday week, to take the Naval Command at that port. The Redpole has been commissioned, and report states that she is to cruise against the pirates in the West Indies.

LIVERPOOL, OCTOBER 3.

The French papers are entirely filled with details of the progress of the election of deputies for the department of the Seine.

It is asserted positively, in letters from

Rio Janeiro, that there is no intention whatever on the part of the King of Portugal to revisit his native country; but some alterations are to be immediately adopted, on account of the inconvenience of the situation of Rio Janeiro as a Royal Court. The Capital is to be removed to St. Paulo, where there is already a small palace for the accommodation of the family. The town is in the Captainship of St. Vincente, and is immediately south of the Captainship of Rio Janeiro. It is, however, stated, that the Prince Royal of Portugal is likely to return to Europe, to undertake the important duties of Viceroy, and to hold his Court for that purpose at Lisbon.

FRANCE.—The approaching elections have awakened in this unhappy country all the spirit and activity of the factions which divide it. The royalists have long complained, not merely of their neglect, but of their discountenance by the ministry; and the latter, either from secret treachery or from views of policy, have cast so many ogles and glances of invitation upon the republicans and Bonapartists, that they are duped in their turn, and find that they warm this party into so much life and energy by their caresses, that they are outdone in the elections, and are likely to have to contend with a chamber composed of the most violent refuse of the republican and levelling faction. In this dilemma of the ministry the royalists appear secretly to rejoice through their resentment, though they know well enough, that it will plunge them and the throne in new difficulties. The most, however, we can learn from these disputes of the physicians, is, that the patient is in a very bad case. They argue moral disorders of the deepest kind, and they prognosticate mischief.

London, Sept. 1.

The King's Health.—Yesterday the following Bulletin was exhibited at St. James's Palace, of the state of the King's Health;— Windsor Castle, Sept. 6.

"His Majesty has passed the month in a very tranquil and comfortable state. His Majesty's disorder continues unaltered; but His Majesty's health is good."

HALIFAX, Nov. 11.

Extract of a Letter from Sydney, dated October 25th, 1817.

"SIR,

"The wreck of a vessel has been discovered within a few days past at Cape North in this Island, she struck against the most perpendicular part of the Cape called the Sugar loaf, and must have sunk immediately with all her crew. Parts of the vessel have come on shore, the end of the fore-yard was above water, from the size of which, together with other parts, it must be a vessel of 150 tons and lost about a month since. I beg you will have the goodness to insert this in your paper in the hope that it may be some inducement to Government to erect a Light House on St. Paul's Island, as there are seldom less than four or five square-rigged vessels cast away yearly about the Cape that we hear of; how many share the fate of this unfortunate vessel and are never discovered I cannot say."

NOVEMBER 7.

Peace Societies are proposed in Europe, auxiliary to the Holy Alliance.

It is said to have been notified, that any British Officer on the half pay list who shall join the Spanish Insurgents, shall be struck off said list.

Sir J. L. Yeo has denounced the settlement of Sierra Leone as not promoting the civilization of Africa or the interests of humanity; and as an expensive experiment, and an unhealthy situation.—He thinks the Gold Coast a more proper part for a settlement to controul the Slave Trade.
